The Treasury, New South Wales, Sydney,
21st December, 1872.

TENDER FOR UNIFORM CLOTHING FOR VOLUNTEER SERVICE—ENGINEERS AND VOLUNTEER RIFLES.—TENDERS will be received at this Office until noon of TUESDAY, the 21st January instant, from persons willing to supply the Government with suits of Uniform for the Volunteer Service during the year 1873. The probable number of suits required will be—

400 Tunics, red cloth, blue facings
400 Trousers, blue cloth, red stripe
15 Tunics, red cloth, blue flush facings
400 Shakos with covers.

The uniforms to be supplied shall be in accordance with sealed patterns, to be seen at the Government Stores, Circular Quay, and must be in every respect equal in quality to them.

The workmanship shall be of the very best quality, handsewn, and each garment fitted to the entire satisfaction of the wearer.

The trousers shall be made for braces, and not with tight waistbands.

Each tunic shall have a hook and eye at the collar, and two strong steel hooks at the sides, to support the waistbelt.

Any garment not supplied strictly in accordance with the above conditions will be rejected, and should any unreasonable delay occur in substituting others of the proper quality, the Government to have the right to purchase elsewhere at the contractor's risk.

The contractor shall commence the delivery of the clothing immediately after the acceptance of the contract, if required to do so, in such quantities only, however, as may be ordered.

No tender will be entertained unless accompanied by a certificate from two responsible persons, stating that they are willing to become bound as sureties in the sum of £500, for the due fulfilment thereof.

In the event of the tender being accepted, the bond must be executed within fourteen days of the date of acceptance, failing which the contract will either be advertised anew or another tender accepted.

Forms of tender and further information respecting the contract can be obtained upon application to the Superintendent of Stores, Circular Quay.

The bonds, contracts, &c., must be stamped at the expense of the contractor.

Each tender must be enclosed in a separate cover, marked outside "Tender for Volunteer Uniform Clothing."

FANNING, GRIFFITHS, and CO., Agents, Spring-street, Sydney.

INDUSTRIAL AND PROVIDENT PERMANENT BUILDING, LAND, AND INVESTMENT SOCIETY.

SUMMARY OF ADVANTAGES.

1. Shares, £20. Subscriptions, 1s per share per fortnight. Interest allowed 8 per cent., and a share in the profits.
2. Paid up shares, £20 each, upon which interest at the rate of 8 per cent. is paid half-yearly, and at the end of each year a share of the profits.
3. No fines are charged the investing member.
4. Investors can withdraw at any time by giving one month's notice.
5. The Society is strictly MUTUAL. Profits divided at the end of each year; both borrowers and investors participate according to their shares and interest in the Society.
6. Deposits from £1 to £1000 received, upon which interest from 5 to 7 per cent. is allowed.
7. The payment of one month's subscription entitles a member to an immediate advance on freehold or leasehold property, or for the purpose of building.
8. Repayment, 2s 3d per share, each fortnight. Members can pay as much more as they think fit, and thus redeem their property at their own convenience.
9. Interest is only charged on the balance owing at the end of each year.
10. No premium is charged or deducted from the loan.

Persons now paying rent would do well to join this most successful Society, and convert what they are now paying for rent into PURCHASE MONEY, the repayments required being so fixed as not to exceed the amount now being paid for rent.

Copies of Rules (6d) and every information may be obtained at the Society's Offices, Park-street.

MEDICAL, CHEMICALS, ETC.

MRS. WELSH'S SOOTHING POWDERS, by post. To be had only at 468, Elizabeth-street South.

HENRY'S COLONIAL OINTMENT, in lid pots, 1s each. All chemists and storekeepers.

ATTENTION of Families and Invalids is drawn to the vital importance of pure MEDICINES, dispensed by able assistants.
SENIOR, Chemist to H. E. the Governor.

THE GREATEST MEDICAL DISCOVERY OF THE PRESENT AGE IS
THE AUSTRALIAN OINTMENT,
which has now been before the public of New South Wales for many years, and continues to create constantly for itself fresh praise and recommendation by all who use it.

For all kinds of external applications, such as old wounds, chafings, sunburns, cracked lips and hands, sore heads, soft corns, excoriations, &c.

Being made from the wild plants of the Australian forest, it is perfectly free from all poisonous chemicals which form the basis of preparations of this kind.

Staffordshire Warehouse,
Sydney, 21st August, 1872.

Dear Sir,—I cannot allow this opportunity to pass without bearing testimony to the wonderful properties of your Australian Ointment, a pot of which I obtained, and on one application of the same to some severe contusions on my forehead occasioned by a fall, a cure was effected in a few hours, and the skin as perfect as before injury. I feel so thankful at the result that I make this acknowledgment, and you are at liberty to make use of this in any way you think proper.

I am, dear sir, yours respectfully,
GEORGE LANE.

To Mr. Edward Row.

In consequence of the great demand and constantly increasing sale, the proprietors wish now to inform the public they have reduced the price of this preparation as below.

Sold by all Chemists and Druggists, Storekeepers, &c., in pots, 1s each, and covered pots 1s 6d and 2s 6d each, retail and wholesale, by the proprietors,
EDWARD ROW and COMPANY,
Wholesale Druggists, 219, Pitt-street.

P.S.—ASK FOR THE AUSTRALIAN OINTMENT.

FRENCH MEDICINES, prepared by
GRIMAULT and CO.,
Pharmaceutical Chemists,
8, Rue Vivienne,
PARIS.

LERAS' LIQUID PHOSPHATE OF IRON.
It contains the constitutive elements of the bones and of the blood, and is the most rational of all chalybeates. It may be prescribed for the most delicate young females, whose development has been retarded; for women suffering from stomach complaints, anæmia; for pale and sickly children, deprived of appetite; and, as its principal action is to restore to impoverished blood the iron in which it is deficient, and to the bones the phosphate that forms their base, it is recommended for debilitated persons, whether their debility proceeds from disease or any other cause. Its use is always attended with surprising results.
GRIMAULT and CO.'S

SYRUP OF HYPOPHOSPHITE OF LIME.
An excellent remedy for all affections of the chest. It relieves coughs, effectually prevents nocturnal perspiration, and restores the patient's strength. This syrup is the only one which, ever since 1857, has invariably been attended with satisfactory results, a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature "GRIMAULT and CO."
The effect of the Syrup of Hypophosphite of Lime is increased by the Pectoral Lozenges of Lactucarium and Cherry Laurel, prepared by Grimault and Co.
The delicious comfit, containing the most soothing substances of all the Materia Medica, is employed with success against coughs, influenza, bronchitis, hooping cough, &c.
GRIMAULT and CO.'S
IODIZED SYRUP OF HORSE-RADISH.
Considered the best substitute for Cod Liver Oil. It has been ascertained, by experiments made in the principal hospitals of Paris, that this syrup has always produced results superior to those obtained from the above-mentioned oil, which patients find so disagreeable to take.
Not a single instance can be adduced in which pale, lymphatic children, subject to swelling of the glands, to eruption of the skin, of the head, or of the face, or other inconveniences of a weak constitution, who have taken this syrup without deriving signal benefit from its use.
GRIMAULT and CO.'S
PEPSINE DIGESTIVE POWDERS, ELIXIR, and WINE.
Pepsine is one of the most recent scientific discoveries in therapeutics. Acting chiefly on the organs of digestion, it possesses the property of digestion by its own innate virtues. It removes all the inconveniences of the difficult digestion, and even prevents nausea.
The researches on Pepsine made at the College of France by Dr. Lecomte, in conjunction with Professor Claude Bernard, must secure the preference for our preparation of Pepsine.

ASTHMA. ASTHMA.
GRIMAULT and CO.'S
INDIAN CIGARETTES OF CANNABIS INDICA.
All the means hitherto employed to relieve Asthma have been only palliatives in varied forms based on belladonna, stramonium, nicotiana, or opium. Recent experiments made in the Paris hospitals have proved that our Cigarettes, made of the extract of Indian Hemp, possess remarkable virtues against this complaint, as well as against nervous coughs, chronic laryngitis, hoarseness, loss of voice, facial neuralgia, and insomonia.
GRIMAULT and CO.'S GUARANA.
A single powder of this vegetable production is sufficient to cure instantly the most violent sick headache. It is the most valuable remedy against diarrhœa, dysentery, and all disorders proceeding from derangement of the stomach or bowels. This powder is indispensable for all families, and far more efficacious than opium and sub-nitrate of bismuth.
INTERNAL OR LOCAL NEW CURATIVE AGENT,
GRIMAULT and CO.'S MATICO.
This new remedy is prepared from the leaves of a Peruvian Pepper Shrub called Matico, and cures promptly and infallibly, without any fear of inflammatory results.
The great majority of physicians in Paris—especially Dr. Ricord—Russia, Germany, and New York, now use no other remedy.
Full directions accompany each bottle and packet.

APOTHECARIES' HALL, 14, South Head Road.—The following popular Medicines can be had only at the above address:—
FATHER WOOLFREY'S WORM POWDERS, the newest, best, and easiest to be taken.
EAMES'S ANTIBILIOUS PILLS, certified by a Sydney doctor, of many years' standing, to be the best family aperient.
QUININE WINE, the pleasantest and most valuable tonic, eminently useful in all cases of debility.
W. D. EAMES, South Head Road, near Hyde Park.

DR. RALAY'S ROYAL DIGESTIVE BITTERS recommended by the most eminent physicians, for numerous complaints, as follows:—The digestive organs, debility, lowness of spirits, dyspepsia, flatulency, and in all cases of fevers,—particularly ague; also, an excellent invigorating tonic. Full directions accompany each bottle.
STEWART and CO., Sole Agents,
88, Clarence-street.

THE following is an extract from a letter dated 15th May, 1872, from an old inhabitant of Horningsham, near Warminster, Wilts:—"I must also beg to say that your Pills are an excellent medicine for me, and I certainly do enjoy good health, sound sleep, and a good appetite; this is owing to taking your Pills. I am 78 years old. Remaining, Gentlemen, yours very respectfully, L. S. To the Proprietors of NORSON'S CAMOMILE PILLS, London."

DR. J. COLLIS BROWNE'S CHLORODYNE.—Vice-Chancellor Sir W. PAGE WOOD stated publicly in Court that Dr. J. COLLIS BROWNE was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been sworn to.—TIMES, July 13, 1864.
Dr. J. Collis Browne's Chlorodyne.—The Right Hon. Earl RUSSELL communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in cholera was Chlorodyne.—See LANCET, December 31, 1864.
Dr. J. Collis Browne's Chlorodyne "is prescribed by scores of orthodox practitioners. Of course, it would not be thus singularly popular did it not 'supply a want and fill a place.'"—MEDICAL TIMES, January 12, 1866.
Dr. J. Collis Browne's Chlorodyne is the best and most certain remedy in coughs, colds, asthma, consumption, neuralgia, rheumatism, &c.
Dr. J. Collis Browne's Chlorodyne is a certain cure in cholera, dysentery, diarrhœa, colics, &c.
Dr. J. Collis Browne's Chlorodyne.—Caution.—None genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle. Sole manufacturer, J. T. Davenport, 33, Great Russell-street, Bloomsbury, London. The immense demand enables the proprietors to reduce the price; it is now sold in bottles, 1s 1½d, 2s 9d 4s 6d, and 11s, containing double quantity hitherto.
Agents: Sydney, ELLIOTT BROTHERS.
Agents: Melbourne, FELTON, GRIMWADE, and CO.

WOLFE'S AROMATIC SCHNAPPS (Registered).
It is an indisputable fact that the advantages of this perfectly pure beverage have now rendered it the most largely consumed of any imported spirit, the demand throughout the whole of the Australian colonies almost exceeding the capability of the proprietor to supply.
Wolfe's Schnapps is now occupying the place held in past years by inferior brands of geneva, the medical profession testifying to its excellence over these and other adulterated spirits, including French brandy, in no less than
TEN THOUSAND LETTERS,
which are in the possession of the manufacturer, all certifying to its perfect purity and marked superiority over every other stimulant as a diuretic, tonic, and restorative.
The Resident Physician of the Sydney Infirmery says:—"I have no hesitation in stating that I consider your Schnapps a most excellent stimulant and diuretic."
The Government Analytical chemist, Melbourne, says:—"As a sample of hollands gin I do not think it can be surpassed. It may be recommended for use in hospital and private practice as a good aromatic stimulant."
CAUTION.
An injunction against the sale of a counterfeited article has recently been granted in the Supreme Court of New South Wales, under a penalty of £30,000; and we are instructed, with a view to protect the public, to prosecute any one offering for sale any imitation of the genuine brand, for which we are the sole Wholesale Agents for the whole of Australia and New Zealand.

ALFRED NOBEL'S GIANT BLASTING POWDER OR DYNAMITE.
TO MINERS, MINING MANAGERS, AND DIRECTORS OF MINES.
SAVE TIME! SAVE LABOUR! SAVE CANDLES! SAVE STEEL! SAVE HAMMERS! AND SAVE MONEY!
By USING the GIANT POWDER.
1. It saves life and accidents, as it is tamped with water, and saves all the risk of boring out missed holes.
2. it saves time, as it strikes downwards as well as upwards, and crushes the rock much more than any other powder does.
3. It saves labour, as one man with a ¾-inch drill and 3½-lb. hammer could do as much as two men with larger drills.
4. It saves half the candles.
5. It saves steel and hammers, as only about half the weight of steel is required to drill the holes, and the small hammers do not wear out or get broken as much as the larger hammers.
6. It saves half the expense of sharpening drills.
7. It saves rents on Government leases, as a mine can be worked out in half the time.
BEWARE OF COUNTERFEITS.

Monthly ..	£3 1 9	£1 19 7	£1 10 2
Quarterly ..	9 6 3	5 19 5	4 10 11
Half-yearly ..	18 15 4	12 0 6	9 3 2

N.B.—Proposals for advances on ordinary fixed mortgage will also receive special consideration.
By order of the Board.
ALEXANDER J. RALSTON,
7-11-71. General Secretary.

£20,000 READY to be ADVANCED by the PERMANENT MUTUAL BENEFIT BUILDING AND INVESTMENT SOCIETY, on Freehold and Leasehold Properties in Sydney and the suburbs, repayable principal and interest by easy monthly instalments. No premium is charged for the loan: Borrowers can pay at any time as much as they please on account of it, and interest is debited only on the balance actually due at the end of each year. Properties redeemable at any time without fine. Borrowers share in the profits of the society. Surplus profits to March, 1872, £2864 14s 10d. By effecting a mortgage on this principle the incumbrance is constantly diminishing, till in a few years it becomes entirely wiped off.

To the next of kin of ELIZABETH M'DONALD, late of, Peechelba, in the Colony of New South Wales, widow, publican, deceased, intestate.

GREETING:

WHEREAS it hath been represented unto our Supreme Court of New South Wales by the Proctor of WILLIAM GUNN, a creditor of the said deceased, that the said ELIZABETH M'DONALD departed this life on or about the fifteenth day of May, one thousand eight hundred and seventy-two, intestate, having at the time of her death goods, chattels, and credits in the colony aforesaid: We, therefore, do hereby peremptorily cite you, and each of you, to appear personally or by your Proctor, duly constituted, before our said Court, at the Court-house in Kingstreet, Sydney, on the seventeenth day of January next, at the hour of ten o'clock in the forenoon of the same day, and there to abide as occasion shall require during the sitting of the said Court, and then and there to accept or refuse Letters of Administration of all and singular the goods, chattels, and credits of the said deceased, or otherwise to show sufficient cause (if you or either of you have or know any) why the same should not be committed to the said William Gunn, a creditor of the said deceased, on his giving sufficient security, and further to do and receive as to law and justice shall appertain, under pain of such Letters of Administration being granted to the said William Gunn, as a creditor of the said deceased.

Witness—The Honorable Sir ALFRED STEPHEN, Knight, Companion of the Bath, Chief Justice of our said Court, at Sydney, this thirtieth day of December, in the thirty-sixth year of our reign, A.D. 1872.

CENTRAL POLICE COURT.

FRIDAY.

BEFORE MESSRS. G. Hill, Oatley, Jolly, Palmer, and Smart.

Seven persons were fined for drunkenness.

Ann Jane Cooke, a notorious vagrant, was sentenced to be imprisoned six months.

Three prisoners were discharged, and four were remanded.

On the summons paper were seven cases. Mary Anne Searle was fined 20s., for using indecent language; and Nicholas Jacobsen was fined 2s. 6d., for placing goods upon the footway. The other cases were postponed.

LICENSING BUSINESS.—A slaughtering license was granted to James Fear, Canterbury. The license of the Honest Irishman Hotel, Waterloo, was transferred from John Mullevy to Samuel Hutchins.

WATER POLICE COURT.

FRIDAY.

BEFORE the Water Police Magistrate and Messrs. Hale, Lester, and Charlton.

Several persons were fined for drunkenness.

William Hall, charged with being absent without leave from the ship Ethiopian, was sent to gaol for one month.

William Clegg, charged with having attempted to commit suicide by cutting his throat, was committed for trial at the next Quarter Sessions.

SUMMONS SHEET.—There were four cases on the summons sheet. Frederick Pantlern, summoned by inspector Seymour for neglecting to keep his premises in Forbes-street clean, was fined 40s., with 5s. costs. Joseph Chant was summoned by inspector Carruthers for hawking without a license in Wyld-street. The Bench considered the case proved, and dismissed it. Mr. Pigott appeared for defendant. One case was postponed for a week, and another withdrawn.

CONSPIRACY TO DEFRAUD.

AT the Criminal Sessions of the Supreme Court of Victoria, held at Melbourne, before Sir William Stawell, C. J., on the 2nd, 3rd, and 4th January, Adolphe Oppenheimer and Adolphus Hamburger were charged with conspiracy to defraud Adolphus Oppenheimer. There was a second count, charging conspiracy to defraud L. Stevenson and Sons, W. Watsons and Sons, O. Bobardt, Paterson Ray, Palmer and Co., the Bank of Victoria, and others. The following sketch of the evidence, &c., is abridged from the *Argus* report.

Mr. O'Loghlen prosecuted; Mr. Billing defended Hamburger, and Mr. G. P. Smith defended Oppenheimer.

Adolphus Oppenheimer said: I entered into partnership, on the 13th August, 1867, with defendant, Adolphe Oppenheimer; Matthaus Hamburger came out here in 1871, and wanted to become a third partner in the business; he was empowered by Adolphe to do so. I objected, and refused to permit him; a deed of dissolution of the partnership was agreed upon in February, 1872, by which I took the liabilities and stock, and agreed to pay off Adolphe; I remitted him £1700; Adolphus Hamburger came here in June last from Sydney, and he took proceedings to set aside the dissolution; it was decided in the Equity Court that the dissolution was not legal; on the day of the equity decision we all three went to the office, and it was agreed after some talk that the key of the place should be handed over to Mr. Thoroughgood, a clerk in Bennett and Greenborough's, to keep for all parties; next morning, however, I found that they had taken possession of the place, and all the papers and documents; they had also taken my own private papers from a box; they threatened to publish the papers, and on the 12th August, for the sake of giving up papers, I agreed to dissolve and assign to Matthias; Matthias was to liquidate the affairs of the firm; I had called a meeting of creditors for the 12th August, at the Duke of Rothsay Hotel; Adolphus Hamburger said he would go and see the creditors, and arrange that they should all be paid; Matthias only acted in name; Adolphus Hamburger was the person who really acted in the affair; I handed over the books and went through the various accounts with Matthias; chiefly the bills receivable and payable, the stock-book, ledgers, and cash book (which is now missing); some of the leaves were subsequently found in the warehouse; Paterson, Ray, Palmer, and Co.'s accounts were not in the book; the bank overdraft was £250; Bank, Brothers and Bell's accounts were in the invoices; M'Naughton, Love, and Co.'s account, and Stevenson's accounts were in open invoices; assisted for two days in working up the accounts when the Hamburgers offered me money to go away; I refused to go until everybody was paid; they threatened to bring an action against me for perjury; the prosecution did take place, but it was dismissed; Matthias left the colony on 23rd August, and I went next day to the warehouse and examined the books, and found some extraordinary entries, partly by defendant Hamburger; one was a cash sale of £179 9s. 1d., but there was no corresponding entry in the cash-book; found the goods packed up ready to be sent to Sydney. Adolphus Hamburger came in and asked what I was doing there; he then went away and brought back Mr. Thoroughgood; Mr. Godfrey also attended for me; I called Hamburger a miserable scoundrel, and said he was trying to make away with the property; the goods were then unpacked and placed among the stock; Hamburger had credited himself in the books with £50 for staying ten weeks in Melbourne; there was also an entry of £80, money taken away by Matthias; this entry was found on some of the torn leaves of the cash-book; Adolphus Hamburger wrote the entries; Matthias had no right to take the money; on the same day Adolphe Oppenheimer arrived from Europe; came to the warehouse on the 26th August; Mr. Thoroughgood, Mr. Godfrey, the defendant, and myself were present; I objected to the presence of Hamburger, and we went into the private office, but he followed us, and we allowed him to remain for the sake of peace and quiet; we went over the books, and found that the entire liabilities were £3600, including the debts to the parties mentioned in the information; both Adolphe Oppenheimer and myself were served with writs for £1800 by the Bank of Victoria; not at my suggestion; we valued the stock and assets at about £8000—the stock at £5800; outstanding debts, £1800; good bills receivable, £800; against this there was an overdraft of £250; the goods had been advertised before Oppenheimer arrived as for sale on the 27th August; I told him that Hamburger was acting improperly in trying to realise by an auction sale: I offered to take the stock, to pay £3600 the whole of the liabilities, to bring release for the claims, to pay him £800 cash and £2200 in bills—payable £100 monthly; I could not give any security; Hamburger then offered £4000 cash; this offer was apparently accepted, and what appeared to be a sale note was drawn up; my offer was subsequently declined by Oppenheimer, and the sale took place; there was a loss of 25 per cent. on some goods; a great many were bought in by Hamburger; the average loss was one-third; the sale was badly conducted; it was more like the sacking of a town than an auction; everyone appeared to help himself; on the first day, the two defendants collected the money; some of the goods sold were bought from the firms mentioned in the indictment; I told Oppenheimer so; on the second day's sale, Mr. Anderson of M'Naughton, Love, and Co. showed me a cheque for £26 which had been dishonoured; I spoke to Oppenheimer and he said he would see Hamburger about it; I also spoke to him about a cheque of Rosenthal's that had also been returned, and asked him why he had removed the account; he said he would see Hamburger; I told him the Bank of Victoria's claim (about £1000) was a perfectly legitimate one and he must pay us; he replied that Hamburger had told him differently, and that he would not pay; he asked me why I had sworn an affidavit that he was going away; I told him I did so, because I really believed he was going under Hamburger's advice; that Hamburger was a miserable scoundrel, and would ruin him; that he (Adolphe) was my cousin, and I did not wish to see him ruined. (Laughter.) Of the Bank of Victoria's claim £250 was an overdraft; the balance a £1300 bill, given to Mr. M. Perl (since insolvent), which the bank had discounted and he must pay; it is not entered on the books; the other bills are entered; the payment of the money that I had agreed, in February last, to pay Adolphe was an extra call on my resources, and I required accommodation bills to pay it, and Perl helped me; the bulk of the money I got through Perl went to Adolphe; at this time I considered myself sole partner; there is a bill of £300 for Perl's accommodation; I discounted it on August 1st; it is not included in the £1300; which includes nothing but the bills Perl gave for our accommodation before I was forced by the Equity Court to rechrist Adolphe as a partner; I made the last remittance to him in April, 1872, because he had ceased writing to me, and had not acknowledged my previous remittances. If the affairs had been liquidated properly there would be about £900 coming to me; in the £4000 which Adolphus Hamburger is represented as having given for the stock, &c., appears £650 as a sum he paid for the firm; I have grave doubts about his having paid it. [Witness was cross-examined by Mr. Billing and Mr. Smith as to the state of the accounts, &c.; his previous career, and religious opinions—witness defining himself as a "Christian Jew."]

Joseph Aarons, trustee of the estate of Oppenheimer and Co., said: I acted on behalf of Stevenson and Sons from the 12th August; attended a meeting of creditors; defendant Hamburger came to the meeting and said that Adolphus Oppenheimer had assigned the whole of the estate to Matthias that morning; that all bills would be paid when due, and the open accounts on presentation; that there was no necessity for the meeting, as everybody would be paid 20s. in the pound; attended a meeting of creditors on the 12th September, at the Railway Hotel, convened by defendant Hamburger, who then said there were no assets; that he would allow the insolvency proceedings to go on unopposed, and when the creditors found they could not get anything from Oppenheimer, he would pay 10s. in the £; he said we could not find Oppenheimer, and I protested against his keeping out of the way; Hamburger made several offers of composition, but they were all so muddled it was difficult to understand them; next day he offered to pay the trade creditors 12s. 6d., but he would not pay the debt of the bank or the accommodation bills; he promised to deposit £1700 with me, but he never kept any of the promises; he said Oppenheimer kept out of the way to avoid the bank; after the rule was granted to sequestrate the estate, the assignee's messenger seized a quantity of papers and some boxes of Adolphe's containing duplicate copies of accounts sent home; Oppenheimer's name was on the boxes; I engaged a detective to bring him back from King George's Sound for fraudulent insolvency.

[Witness was cross-examined by counsel for defendants on the following day.]

Joseph Aarons, who had been examined on the previous day, said that he wished to correct part of the evidence that he had given. He had stated that he went to Oppenheimer's store on the 29th August, and found it nearly empty. That was a mistake. It was not till after the sale had been concluded, about the 7th September, that he went there.

Isaac Lyons, auctioneer, said that he held an auction sale of the goods at Oppenheimer's shop; it realised about £2200; it was a very good sale; he had advanced £300 to Hamburger on the first day of the sale, 27th August, to enable him to pay the defendant Oppenheimer; he deducted this from the sum realised, and handed the balance to Hamburger. In cross-examination, the witness stated that Adolphus Oppenheimer had told him before the sale that it would not come off; it was Hamburger who told him to sell, and to Hamburger he paid the money. In taking stock he would deduct about one-third from the selling price in estimating the value; Adolphus Oppenheimer used to attend the Jewish Synagogue, and acted as a member of the committee; the Hebrew persuasion did not recognise Christian Jews; they only recognised orthodox Jews; Adolphus Oppenheimer had sent him goods for sale in the name of Jennings, and had received the proceeds.

Charles W. Leggatt, clerk in the late firm of A. Oppenheimer and Co., said that he attended the sale of the goods; some of the goods were sold at less than their value; the goods that were sold included those bought from Stevenson and Sons, M'Arthur, Sherrard, and Copeland, M'Naughton, Love, and Co., and other warehousemen.

Henry Gustavus Bobardt, watchmaker, residing in Leicester-street, stated that Hamburger and Oppenheimer stopped at his place for some days; he lent Hamburger £300 about the 27th August; he could not say what the money consisted of; he believed he gave a cheque for £200, and the balance in notes; Hamburger repaid the money by instalments within three days; subsequently Hamburger, after his return from Sydney, paid £500 into his account, and he (the witness) gave it to him as it was wanted, as he understood for the purpose of paying creditors; Oppenheimer left his house about the 3rd September; there was no change in his appearance since then.

Maximilian Meyer, assistant to Mr. Bobardt, stated that on the 31st August (Saturday) the defendant Oppenheimer asked him to obtain drafts from different banks for three sums amounting in the aggregate to £1750; he left it to his own discretion as to what banks to go to; he went to the Union, the Oriental, and the Bank of Australasia, and got the drafts in his own name; on his return, Oppenheimer pointed this out to him, and he said he could remedy it by writing an endorsement; he did endorse it; the money he got for the purpose was mostly notes; there was a little gold; he had not cashed any cheques for Oppenheimer, but he did cash one for a customer of Bobardt's about that time; he never authorised Oppenheimer to use his name, or to pass under his name.

Valentine J. Saddler, clerk in the Bank of New South Wales, said that there was an account opened in the name of A. Oppenheimer and Co. in liquidation; on 13th August it was operated upon by the Hamburgers, principally by Adolphus; it was closed on the 30th August by a cheque for £263 18s.; another account in the name of A. Oppenheimer and Co. in liquidation was opened on the same day with this £263 18s.; this account was operated upon by Oppenheimer alone; Hamburger told him that there was an outstanding cheque for £66, which would probably be arranged for; the total amount paid into the second account was £3352 4s. 9d.; it was drawn out principally in two sums on the 31st; Meyer was present when the cheques were cashed; among the items paid into one of the accounts was the sum of £595 by Hamburger; he thought a similar amount was repaid from Oppenheimer and Co.'s account, but he was not sure unless he saw the pay slips; the pay slips which would show the transaction he had given in at the Police Court, and he had not seen them since; Hamburger wished to draw a cheque for £700 on his Sydney account, and the bank telegraphed whether it would be honoured; the reply was that it would be, and his cheque to that amount was honoured.

Francis Gillman, managing clerk to Mr. Farmer, solicitor, said that on 5th September he went to Adolphe's residence in Leicester-street, to serve a writ on Adolphe for M'Arthur's debt; Hamburger had first told him Adolphe would be in shortly, but after the lapse of an hour said there was no use waiting, Adolphe would not come while witness was there.

Andrew Donaldson, late storeman to A. Oppenheimer and Co., was the next witness, but his evidence was chiefly corroboratory.

Frederick Secretan, sub-inspector of police, said that he went to King George's Sound in October last, and arrested the defendant Oppenheimer there. He asked him if his name was Oppenheimer, and he made no reply except that they had got the wrong man. Donaldson then identified him. On searching him, £75 was found on him and a passage-ticket by the Emily Smith from Adelaide in the name of Max Meyer. He gave no reason for leaving Victoria. He said that he had left on 3rd September. He further said that he had sent home £1700, but he did not say it was for his home creditors.

Peter Daley, detective constable, said that he left Melbourne for Sydney by steamer on 17th September, with a warrant to arrest Hamburger; he was assisted by the Sydney police in searching for him for several days; ultimately, by arrangement with Mr. Brown, his solicitor, witness met Hamburger on board a steamer, and he came back to Melbourne with him; he did not execute the warrant till they arrived in Melbourne, so as to let Hamburger come here free; Hamburger told him that he had left Melbourne on the 11th September, had gone by train to Echuca, and thence to Wagga Wagga on horseback, where he was arrested, but was discharged, as the police had no warrant; the steamer Blackbird left Melbourne for Sydney on the 11th September. Evidence was then given that the account of the firm with the Bank of Victoria was overdrawn to the extent of £279, which had not been paid; that M'Naughton, Love, and Co.'s account for £86 12s. 5d. had not been paid. It appeared that, as regarded the account of M'Naughton and Co., Hamburger, on 30th August, gave a cheque for £84 12s. 5d., deducting £2. There was some dispute about the commission and rebate to be charged. Hamburger wanted what he called guarantee commission, but the collector would not sanction it, and only gave a receipt on account. The cheque for £84 was presented through the bank next day, but was returned dishonoured as the account had then been closed. On the same day Mr. Anderson, the cashier at M'Naughton's, met Hamburger and asked him about it, and Hamburger said, "As you would not give me my commission, you must now take what you can get."

The following is an abstract of the evidence for the defence:—

Julius Raphael, member of the firm of Raphael, Brothers, had sold goods to A. Oppenheimer and Co., in July, to the amount of £84 16s.; was paid £84 10s. on the 28th August by Hamburger; there was a discount allowed, but some law expenses which defendant paid swallowed up the discount; had dealt with the firm of Hamburger, Brothers, of Sydney, for some years; they had always paid him cash for goods bought from him; he looked upon Hamburger as a person of great respectability. Elias Samuel, of Samuel and Co., said his firm were creditors in August for £176 4s. 11d.; Hamburger, Brothers, paid him on August 12, less 5 per cent. discount; had done business with Hamburger for two or three years, and considered him a man of the strictest integrity; Samuel and Co. were paid before their bill was due; he had sold in September last some fancy goods to Adolphus Oppenheimer under the name of Jennings. Believed he sold some of it by auction. Saul Aronsen, of the firm of Rosenthal and Co., said that his firm were creditors in August on the open account for £61 and £82 14s. 5d. on acceptance. On the 23rd August Hamburger paid them on the open account, less cash discount. They received on 28th August a cheque for the £82 14s. 5d. It was dishonoured. On the 12th September Hamburger paid them £60, which they accepted as payment in full. Hamburger was an honourable and straightforward man. Andrew Wallis, cashier to Laing and Webster, said that his firm had a claim for goods sold between 27th June and 1st August to the extent of £87 19s. 2d. Hamburger paid them £83 on 21st August. The difference was cash commission and rebate. J. E. Clarke, clerk to Watson and Sons, said that his firm were creditors, in August, for £62 13s. Hamburger paid them £59 11s. on 21st August; the difference was for commission and guarantee. Winfield Attenborough, attorney, said that the Bank of Victoria had commenced three actions against the defendant Oppenheimer on bills to the amount of £1500—a bill for £1053 was one of them. The defendant applied to a judge for leave to defend, and was permitted to do so, on his paying £280 (the amount of the overdraft) into court. Defendant came to him (witness) for advice. Told him that if he provided for his trade creditors there was no necessity for him to remain in the colony to fight the Bank of Victoria. The defendant was in a dreadful state of mind. He had left his wife and family at home, and he was annoyed at being followed about by detectives, employed by the bank, it was supposed. He was going mad almost. Advised him a day or two before he left. Hamburger was spoken of as a proper person into whose hands to leave the money for the trade creditors. The firm of Bennett and Attenborough had been paid £684—£457 on account of Hamburger, and £147 on account of Oppenheimer. There was still £300 due. Hamburger paid him £116 on 16th August. James Copeland, of M'Arthur, Sherrard, and Copeland; Thomas Cooper, landlord of the premises lately occupied by A. Oppenheimer, and Co.; Christopher Tully, draper; Barnett Solomon, all deposed to having been creditors of Hamburger's, and having been honourably settled with. William Davis, solicitor, said he acted for Hamburger in collecting the debts of A. Oppenheimer and Co. He commenced collecting on 7th September, and received about £400. He would not give £100 for the remainder. There was not much collected before he began. Notice was given by Adolphus Oppenheimer to the debtors not to pay. William Weaver, warehouseman, went through the stock of A. Oppenheimer and Co. in August last, with the intention of purchasing it. Offered Hamburger a few days before the sale the sum of £2800. Was prepared to give a little more if they had been willing to close. Thought the goods were sold well. Was accustomed to buy insolvent stock. Made a deduction of over 50 per cent. on the selling price. In taking stock, the usual way is not to put it down at the selling price. [This latter evidence was corroborated by several other witnesses.] Conrad Deen, late clerk to Mr. M. Perl, said that accommodation bill transactions had been going on with Adolphus Oppenheimer

SHIPS' MAILS.

MAILS will close at the General Post Office as follows:—

PER BRISBANE, PORT DENISON, AND CLEVELAND BAY.—Leichardt (s.), this day, at 11 a.m.

PER GRAFTON.—By the Agnes Irving (s.), this day, at 6 p.m.

The colonial barque Lady Bowen, bringing a full general cargo of American produce, arrived yesterday from New York, whence she sailed on the 14th September, with moderate winds and fine weather, which brought her into the N.E. trades, which proved unfavourable, the wind, as a rule, holding from S.E. and E.S.E.; crossed the Equator on 23rd October, in longitude 29° 30' W., thirty-eight days out; passed the meridian of the Cape of Good Hope on 3rd December, and ran down the easting between 47° and 48° S., strong gales from N.W. to S.W. prevailing. On 28th December passed within four miles of a very large iceberg, and through a quantity of field and drift ice; signalled Cape Otway on the 3rd instant, and ran through the Straits with E. and E.N.E. winds, which continued to Cape Howe. The following ships have been spoken:—January 1st, Falcon, barque, from Newcastle December 14, to Mauritius, in latitude 39° 55 S., longitude 139° 40 E.; January 3, Emma Jane, from Richmond River to Cape Otway, for orders, 30 days out, and short of provisions, which were supplied.

The barque Medea arrived yesterday, in tow of the steamship Tamar, and has come on to this port to take in a cargo of Bulli coals for Melbourne. She will be followed by the Jane Spears, also for the same port.

The barque Lizzie and Rose, which took fire at Cuthbert's Wharf, has been opened out, and it was found that two beams, shaft piece, and clamp, together with stringers, and ceiling down to the lower hold beams, had been burnt, as also two of the frames; these will have to be taken out, and involves some very heavy work.

The Governor Blackall (s.) left Rockhampton on the 6th instant at 8 p.m., and rounded Breaksea Spit on the 7th at 3 p.m., was off Cape Moreton on the 8th at 8.30 a.m., passed Smoky Cape on the 9th at 4.30 p.m., and arrived in Sydney on the 10th at 8.30 p.m. Experienced strong S.E.E. winds and thick muggy weather to Breaksea Spit; from thence to Sydney strong S.E. and E.S.E. winds, with heavy squalls and high seas, accompanied with thick rain.

The cargo of the New England (s.) consists of 520 bags maize, 230 bales wool, 101 bags tin ore, 965 cases meats, 73 bags barley, 200 bags bran-dust, 35 hides, 4 cases eggs, 3 casks tallow, 2 bales leather, 21 pieces machinery, 120 bunches bananas, and sundries. She left Grafton at 2 p.m. on the 8th instant, crossed the bar at 9 a.m. on the 9th, entered the Heads at 4.15 p.m., and arrived at the Company's wharf at 4.30 p.m. on the 10th. Experienced strong southerly and S.E. winds, with much rain and high sea, throughout the passage.

The brig Rita arrived from Newcastle yesterday.

The Rangatira (s.) left Brisbane Wharf at 8.15 p.m. on the 8th instant, passed Cape Moreton at 8.40 p.m. same day, passed Smoky Cape at 10 p.m. on the 9th, Port Stephens at 10.30 a.m. on the 10th, and entered Port Jackson at 6 p.m. same day. Experienced strong S.E. winds, with heavy rain, throughout the passage.

The Abergeldie, now ready for sea, has on board the following cargo:—4,941 bales wool, 67 bales cotton, 117 bales leather, 204 bags 74 casks tin ore, 3 casks copper ore, 332 hogsheads treacle, 1663 casks copper, 6 cases beeswax, 151 bags cotton seed, 226 bags bran-dust, 336 cases meats, 30 cases pearl shell, 13,316 horns, 16,517 bones, 3 casks sweepings, and 7 packages sundries.

A whaling barque was reported as entering Jervis Bay yesterday.

The City of Melbourne (s.), for Melbourne, and City of Hobart (s.), for Hobart Town, passed Tuncfold Bay yesterday, at 10 a.m.

NOTE.—Though fewer ships have arrived in 1872, there is a much larger amount in tonnage, number of crew, and passengers, over the arrivals of 1871.

Again, though fewer vessels have departed in 1872 a larger number of crew and passengers has left this port than in the previous year.

These returns are exclusive of ships of war and all vessels trading coastwise only.

SPECIAL ADVERTISEMENTS.

PROSPECTUS of THE GREAT VICTORIA GOLD MINING COMPANY, Victoria Reef, Adelong.

To be registered under the Limited Liability Act.

Capital £10,000, in 10,000 shares of £1 each.
4000 shares, paid up, apportioned to the present proprietors.
The balance of 6000 shares to be issued to the public on paying 10s. per share deposit and 10s. on allotment.

DIVIDENDS TO BE PAYABLE UPON ALL SHARES ALIKE.

As soon as the 6000 shares have been allotted the present proprietary will transfer to the Company their right, title, and interest in the said mine; with the whims, ropes, horses, tools, smithy, &c., thereon, together with AN UNEXPENDED CASH BALANCE OF £1250, SET APART FOR THE DEVELOPMENT OF THE MINE, which will constitute the working capital of the Company.

The claims having been purchased under most favourable circumstances, and the capital required being small, it will at once be obvious that the dividends will have a corresponding ratio, and will not be so widely distributed as in companies with much larger capitals.

IT IS CONFIDENTLY BELIEVED THAT DIVIDENDS MAY BE EXPECTED WITHIN FOUR MONTHS.

The business of the Company to be managed by a Board of Directors, who shall be elected at a general meeting of shareholders immediately after allotment of shares.

PROVISIONAL DIRECTORS:
F. L. Edwards, Sydney. S. M. Swift, Adelong.
PROVISIONAL MANAGER:

The property is situate on the Victoria Reef, Adelong, and comprises the two well-known claims, Trudgeon's and Farrington's, measuring 334 feet on the base line. Also, 5 acres adjoining on the east side of the said claims, which covers the line of the Flagstaff Channels and the Middle Reef; and 10 acres, or thereabouts, on the west side, secured for tramways, reduction works, &c., which has special advantages for the erection of steam-crushing machinery.

The crushings of quartz and mullock mixed from Trudgeon and Farrington's claims—as shown by the books at Messrs. Wilson and Co.'s mill—gave from 2 oz. to 3 oz. per ton. Quartz, free from debris, yielded from 5 to 6 oz. per ton; thus showing that the gold-bearing character of the lodes has been well established by actual yields of great value.

The claims are better situate for surface and exploring operations than any other claim on the Victoria Reef. They are within 656 feet of the Williams Gold Mining Company's claim, on the north, and they adjoin the Research Company on the south; both of which are giving such splendid returns.

The Research Company is now raising stone far superior to anything yet obtained from their claim, and this is from a new reef that was struck a short time ago, at a depth of 340 feet, or thereabouts. The stone is of a beautiful blue colour, thoroughly impregnated with gold, not in mere specks, but in great pieces; such a show has never been seen in the claim before, although it has paid something over 200 per cent. on the capital invested, including the return of the first investment.

The Flagstaff Company, and Annett and Company—the only two claims between the Great Victoria and Williams's—are getting up rich stone. It may, therefore, be confidently expected that at least equal results will accrue to the Company here placed before the public. In fact, there is good reason to believe it will be one of the best investments in the Adelong district.

There are three shafts on the claims. The northern is 315 feet deep, the middle 350 feet, and the southern 230 feet. The northern and middle shafts are used for winding purposes. At a depth of 300 feet from the surface of the north shaft, an air drift is being carried through to the south shaft, which is expected to completed by the middle of January. When the air-drift, the enlarging of the upper part, and timbering a portion of the middle shaft, has been completed, it is determined to sink a further depth of 50 feet, and then cross-cut eastward for the Flagstaff Channels, Middle Reef, &c. While sinking and cross-cutting is being prosecuted in the middle shaft, quarts from the unworked channels of the Victoria Reef, above the present levels, can be worked to profit.

By the erection of a double-horse whim, in lieu of the existing one, at the middle shaft, it is expected the shaft will be sunk to the required depth, and the cross-cuts driven without the aid of steam power.

The capital is fixed at only one-eighth of Williams's neighbouring claim, with a view of meeting the market and ensuring large dividends.

Applications for shares, accompanied by deposit of 10s per share, will be received by the undermentioned, until the 20th January instant.

THERE ARE UPWARDS OF 11,600 POLICY-HOLDERS in the AUSTRALIAN MUTUAL PROVIDENT SOCIETY, jointly contributing more than £179,000 per annum in premiums, to provide nearly £5,000,000 at their death, or to be paid themselves on attaining a given age. The Society, since its establishment twenty-two years ago, has issued 16,318 policies; paid for claims and purchase of policies £344,422; distributed to members realised profit amounting to £196,352, and has acquired a safely invested accumulated funds, raised entirely from the contributions of the members of £818,000, and a gross annual revenue from premiums and from interest of £224,400. The progressive increase in the Society's business and resources is prominently brought out by comparing the amount of business at the periods of the several Quinquennial investigations, as shown in the following abstract:—

Quinquennial Period ending	No of Policies.	Sum Assured.	Annual Revenue From Premiums.	Annual Revenue From Interest.	Accumulated Funds.
28th Feb., 1854	551	£105,447	£3,386	£438	£6,583

" 1869	8,888	3,966,191	138,784	42,923	602,645

When it is borne in mind that this large amount of business has been obtained in 22 years from the Australian colonies and New Zealand, the success of the Society has a national interest.—"REVIEW" of 15th October, 1872.

lord over it. But in this case he would become indistinguishable from "the beasts that perish." His wants would narrow to those of appetite, to supply which the entire of his strength and time would be occupied, and the intellect, reduced to these degraded uses, would refuse to work its charms in the earth, and establish the connection between heaven and this planetary sphere, which shall be a fact marvellously visible when less labour shall be expended in winning bread and more in winning knowledge

There is one result which is sure to spring from the occasional display of our achievements and productions, and the assumed desire to participate in them—and that is, the creation of better means of communication. And better roads will facilitate the interchange of natural products and other things, and bring about a better understanding. Local jealousies will disappear: we shall see eye to eye, and find our interest to be in hearty co-operation; our Telegraphic system should be Australian; our Railway system, to a considerable extent, Australian; even as our Mail Postal system, which has been conducted with more economy joints than it could have been severally. As to a Customs-Union, if its fit time be not now, there are influences working to bring it about, and amongst these are such as we have mentioned. All that tends to quicken commercial intercourse must break down the trade barriers which one and another of these colonies is throwing up, under he ruinous self-deception of their being beneficial.

LONDON INTERNATIONAL EXHIBITION, 1873.—The usual weekly meeting of the Commissioners took place at their offices in Bridge-street, at 3 p.m. yesterday. There were present—Hon. G. A. Lloyd (chairman), Hon. S. Samuel, Messrs. T. S. Mort, E. L. Montefiore, Joseph Thompson, J. Alger, and William Wallis. Minutes of last meeting and of executive meetings were read and confirmed. The secretary reported that he had called on most of the larger contributors to the fund for the representation of the colony, and they had consented that the money should be so appropriated. A letter from the Hon. the Chief Secretary was read, together with a telegram from the Agent-General, stating that the French Court would be lent free to the colonies, and that there would be no difficulty regarding space. It was resolved to canvass the city without delay for exhibits, more particularly minerals, raw produce, sugar, &c. It was resolved that the Executive Committee be requested to make arrangements with the various mining companies to secure from them, on the best possible terms, ample specimens of tin, copper, gold, &c., to effectually represent the colony in this department. It was resolved that all heavy exhibits intended to be shipped in sailing vessels be requested, by advertisement, to be sent in by the first week in February, and smaller exhibits that may be sent by mail steamer by the end of that month. It was resolved that the executive committee be requested to wait on the Hon. Chief Secretary to ask the Government to appoint as commissioners in London Sir Charles Cowper, Sir Daniel Cooper, and Mr. D. Larnach to act on behalf of the colony in all matters connected with the Exhibition of 1873.

THE HON. GEORGE ALLEN, M.L.C.—This gentleman has, during a long and useful career, given more time and attention, we believe, to the public institutions of the city, than any other person. This is not the period to fairly estimate his gratuitous and honourable exertions on the cause of benevolence and charity. But his retirement from the Council of Education seems a fitting time to mention how much he has laboured for the education of the people. For nineteen years Mr. Allen was a member of the Denominational Board, and for six years, under the Public Schools Act, he has been one of the Council of Education. For some years he was chairman of the former, and recently President of the latter. The Government solicited Mr. Allen to permit himself to be reappointed to the Council, but he declined on account of advancing years. It was, however, a great gratification to the venerable gentleman when the seat was proffered to and accepted by his son, Mr. G. W. Allen, M.L.A.

ST. ANDREW'S COLLEGE.—A deputation consisting of the Rev. Dr. Steel, Mr. J. H. Goodlet, Mr. Anderson, Captain Smith, and Mr. Brown (of Cawerwell), had an interview with the Colonial Secretary yesterday, with reference to the St. Andrew's Presbyterian College. Dr. Steel said that he and those now associated with him had been deputed by the councillors of St. Andrew's College to bring a matter connected with that institution under the notice of the Colonial Secretary. The councillors met on the 24th of September last; at that meeting they were all present. They proceeded to the election of a principal; and on the 27th of the same month a communication was forwarded to the Colonial Secretary's office, mentioning the fact, and requesting the Government to proceed with the incorporation of the College according to law. But from that time to the present the Council had received no information respecting the application. And as the academic year of the University was about to commence, they were anxious to know whether the Government considered that they had complied with the law, and could take further steps with regard to the establishment of the institution. They would have waited upon the Colonial Secretary long ere this had they not understood that the matter had been referred by Mr. Parkes to the Attorney-General. And they expected that as soon as the Attorney-General had given his opinion upon the question the Council would have been informed of the nature of that opinion. It was very important to the councillors to know how the matter stood; for they believed they had complied with the law, and had carried out what the Attorney-General signified to them in a communication from him last July. The Attorney-General then stated that the twelve Councillors should be present when they proceed to the election of a principal. They had conducted the election in accordance with that opinion; and they expected to have been able to set the institution afloat long ere this. They were all the more anxious about it, as they understood that private parties had obtained a copy of the Attorney-General's opinion; and they thought that they also ought to have received some communication from the Government. He hoped and trusted the matter would be expedited, in order that, if the decision of the Government was favourable to the institution, steps might be taken to incorporate it. Mr. Parkes said that much of what Dr. Steel had stated was true. The matter was referred for the Attorney General's opinion, and that opinion reached the Colonial Secretary's office. He believed Dr. Lang and his friends felt aggrieved in some way which he (Mr. Parkes) did not quite understand. Some of them applied to him in the matter. At that time he had not seen the Attorney-General's opinion; he had not read it, but he knew its purport, and he stated to Dr. Lang's friends that it was unfavourable to their view. In the course of the conversation they asked for permission to see the Attorney-General's opinion, and he told them he did not see any objection to their having a copy of it. And he had a copy prepared for them, the same as he would have done for the present deputation. Subsequently a communication was, he believed, sent to him, stating the views of those gentlemen on the case, and alleging, as explained to him, that there were some facts which they did not think the Attorney-General had considered, or that there was some point which they did not think had been taken properly into consideration by that gentleman when forming his opinion. He (Mr. Parkes) then promised to consider the whole question before any decision was arrived at—that was the whole question so far as former papers affected it, and the opinion of the Attorney-General, and the letter of explanation sent in by those gentlemen who felt dissatisfied with the Attorney-General's opinion. It was simply for want of time, and from other things pressing upon his attention which he thought had a prior claim, that he had not gone into the matter and read over the papers. But he would certainly go through them, and a decision should be arrived at by Monday or Tuesday next. He imagined that the Attorney-General had gone fully into the case, and that his opinion was a decisive one. But he wished to consider the whole case, and he would do so without further delay. Mr. Goodlet pointed out that they did not know the nature of the representations that had been made by Dr. Lang's friends, and therefore they were not able to rebut any of the statements made. If an adverse decision was likely to be given, he thought it was only fair, before it was given, that they should know what had been stated by the other side, so that they would have an opportunity of rebutting anything that had been stated. Mr. Parkes said that should there be anything—which he did not imagine was likely to be the case—that would lead the Government as a whole to want further information after considering the opinion of their own Attorney-General, the deputation might be assured that they should be informed. The opinion of the Attorney-General went before the Government simply as the opinion of their own Crown Law officer. It might possibly be that they would dissent from it, but it was very unlikely. The deputation thanked Mr. Parkes and withdrew.

ANNUAL UNITED PRAYER MEETINGS.—A series of united prayer meetings was held in Woollahra, Paddington, and Waverley, respectively, in the Congregational and Wesleyan churches in these suburbs, this week, on the Monday, Tuesday, Wednesday, and Thursday evenings, which were largely attended. The Revs. Dr. Barry, J. P. Sunderland, J. C. Kirby, and J. B. Waterhouse took part in these services, and gave suitable addresses on the topics arranged for each evening in the city churches.

A NEW RUSH AT GULGONG.—The *Guardian* states that a rush has taken place to a gully on the south side of Rouse's 4000-acre paddock, which has attracted considerable attention. The sinking is about 12 feet, and the prospects a dwt. to the bucket, with coarse bits occasionally. The ground is marked off literally for miles, and there is considerable activity to be seen in the sinking line, and a week will enable a pretty safe opinion to be formed of its value.

THE HON. LADY ROBINSON.—Telegraphic news has been received of the safe arrival at Hobart Town of the Hon. Lady Robinson. Her Ladyship left Sydney in H. M. S. Clio on the 4th instant.

UNITED COMMUNION SERVICE.—The series of united prayer meetings held in various churches throughout the city and suburbs during the past week was brought to a conclusion last evening by a united communion service in the Pitt-street Congregational Church. After singing, the reading of Scriptures, and prayer, the Rev. John Graham preached from the words, "If any man serve me let him follow me, and where I am there shall also my servant be; if any man serve me, him will my Father honour." John xii., 26. The Rev. Dr. Steel delivered an address to the communicants. The Revs. W. Curnow, T. Johnson, and A. W. Webb also took part in the service, which was closed with the Apostolic Benediction shortly before 10 o'clock.

TEMPERANCE MEETING.—The usual weekly meeting of the New South Wales Alliance for the Suppression of Intemperance was held in the Temperance Hall, on Wednesday evening last. The chair was occupied by Mr. Palser, and the meeting was addressed by Messrs. Druce, Selby, Adelaide, P. Campbell, and others. The meeting was brought to a close by the singing of a temperance melody.

PRINCE ALFRED YACHT CLUB.—The monthly meeting was held at the club room on Tuesday evening, when the usual business was transacted. New members were proposed. An evolution day was fixed for to-day; yachts to assemble to Snail's Bay at 2.30.

THE CHALLENGE CUP MATCH.—The match for the challenge cup between the Albert and Newtown C. C.'s will be continued this afternoon, at 2 o'clock, when the Newtown team will resume their first innings.

SHOOTING GALLERIES.—A nervous lady directs our attention to what she conceives to be a great nuisance, and that is the shooting galleries in crowded streets. These places are decidedly objectionable in close proximity to the street, and, besides alarming nervous people passing by, are calculated to endanger life by frightening horses when the explosion of the miniature gun takes place. The discharge of firearms within the city is contrary to the provisions of the Police Act, and we believe these galleries may be reached and suppressed in this way.

THE INTERCOLONIAL CONFERENCE.—The *Courier* says:—The name of the Hon. A. H. Palmer was in the passenger list of the Leichardt, which sailed for Sydney on Saturday night; but he did not leave by that vessel, as he had intended, in consequence of the receipt of a telegram in the afternoon, stating that the Intercolonial Conference would not be held until the 17th instant. The delay has been occasioned in order that time may be allowed for the arrival of the representatives of Western Australia, who have no opportunity of reaching Sydney except by the incoming Suez mail steamer.

SKETCHES OF LIFE IN THE BUSH.—A readable little work of some eighty pages, containing a few sketches of bush life, by a lady resident of Balmain, has been sent to us. The "sketches" give a more exhilarating picture of travel and bush homes than is usually met with in the adventures of those who penetrate deep into the interior in search of land for squatting purposes; and we really question whether many of the softer sex would be found to exchange the comforts of town and fashionable life for the pleasures of a "camp out," such as described by our authoress. The scene is on the Darling River, above Bourke. Messrs. Gibbs, Shallard, and Co. are the publishers.

STRIKE AMONG ACTORS.—A correspondent of the *Scotsman* thinks that in consequence of the amalgamations of interests which Messrs. Chatterton and Webster have brought about, a strike in the dramatic profession is not unlikely. The *Pall Mall Gazette* naively observes:—"It is sad to think what the consequences might be to the public; the managers might call in amateurs."

REMARKABLE CASE OF INJURY FROM A MOSQUITO BITE.—Some nine months since (says the *Albury Banner*) a young woman was bitten on the leg by a mosquito. Instead, however, of the swelling and irritation from this cause disappearing as usual in a few hours, the inflammation continued, and the part has never since healed. So bad has the wound become that the patient is now under treatment in the Albury Hospital. It is considered that the coloured stockings worn by the young woman at the time she was bitten may have increased the inflammation, by the dye coming in contact with the wound.

DEATH BY DROWNING.—An inquest was held on Monday, January 6, at the residence of Mr. William Quayle, of Ulmarra, (says the *Clarence Examiner*) touching the cause of death of one Peter Quayle, who had been drowned the day previous, whilst bathing in the Clarence River. William Quayle, the father of the child, stated that the deceased, who was only four years and seven months old, after dinner on Sunday went to the Clarence River, in front of his parents' residence, in company with his two brothers, the eldest of whom was only eight years of age, to bathe; witness was lying down about 2 o'clock, when his wife called him, stating that "Peter was drowning;" he immediately sprung to his feet and ran down to the edge of the water, where he saw deceased lying on his back, about half-a-chain over the shelf, in deep water, it being about twenty feet deep; the current and wind were carrying deceased further out and up the river; witness went over the shelf into deep water to try and save deceased but being unable to swim he had to scramble up the bank without succeeding in reaching the child. The jury found —"That the deceased Peter Quayle was drowned in the Clarence River on the 5th of January, whilst bathing, and that death was purely accidental."

THE GRAFTON RAILWAY LEAGUE.—The *Observer* reports that at the meeting of the Railway League, held on the 30th ultimo, Mr. T. Page reported that the petition adopted at the public meeting had been printed, and distributed for signature, and at the end of this week he expected the lists on the Clarence would contain about 2000 signatures. This number would be very much increased by the time they wanted to send it to the Assembly. In consequence of the strange notions in some of the newspapers that had arrived in Grafton about the object of the league, and the effect of the proposed railway, he thought that the league should take some steps in time to contradict the statements in those papers. Some had sneered at what had been said about separation, and joining Queensland, but no one here had thought of connecting this part of New South Wales to Queensland. The Tenterfield paper had spoken disparagingly of our efforts, and advocated a good macadamised road to Lawrence instead of a railway, and others that we only thought of a terminus in Grafton and nothing about New England. He hoped that the people of New England would see that it was their interest to act with Grafton. As the member for Tenterfield was present he hoped that he would be able to correct the erroneous ideas entertained by his constituents.

MUSICAL AMATEURS.—The following pertinent remarks from the *Globe* of October 11 may be studied with advantage at times when the musical amateur, whether vocal or instrumental, usurps the position of the professional, or rather when the professional is passed over, and the superficial *amateur* is the lion, and "a brilliant future" declared to be before him or her—a future that in 999 cases out of 1000 is never realised. Our contemporary observes:—"By an amateur is, of course, meant one who loves his art so well as to exercise it without being paid for it. The very existence of the amateur is an enigma to the professional mind. The latter loves his calling very much as a cobbler loves making shoes; if he makes money, he regards it as the most sublime of arts; if he starves, as the most miserable of trades. Occasional genius may fairly be left out of the question in speaking of a profession into which people rush pell-mell in the hope of getting something out of the scramble. There never was an amateur yet of whom it was not said, 'in well-informed and highly influential circles,' that he would have outrivalled Mario, or Malibran would have been nothing to her. Music is the only sure path of success to the small amateur, of whom the drawing-room is the field. The amateur who can be licensed to patiently, and the most meagre effort crowned with congratulation and applause, even though rivals crowd the room. Envy herself is silent, though the back of the singer is turned to the room—for the amateur generally sings to the wall. If the artist wonders at the amateur's existence, still more does he wonder at the amateur's immunity from adverse criticism. It is almost too cruel to suggest that the amateur sings to audiences made up of amateurs, each of whom hears the words, 'My turn next,' set to the most exquisite music, running like a refrain through the tortured ballad or impossible *cavatina*. The real lovers of music—who for the most part have every reason to detest its casual performance—are probably whispering the news of the day in corners, and applaud when the song is over only to cover their voices. If these had had their way, the greater than Mario would have been condemned to pass an evening uncheered by his own voice, of which he is as much enamoured as if he were a parish politician. If the professional musician sang to audiences bound by 'the lively expectation of favours to come' to applaud, music would indeed be a profession of roses. No wonder that a class is rapidly developing which may be called professional amateurs. They are not like the amateur singers of old, who were welcomed out because they 'could sing a good song.' These for the most part, sing very bad songs; but they go from house to house 'starring and fulfilling engagements,' often enough to the neglect of their clients, their patients, or their books, because they like to hear themselves sing, and other amateurs like to receive their secure applause. Musicians have some reason to complain, seeing that the system by which people may give musical parties for nothing makes real artistic training expense, and trouble thrown away. But they have their revenge. Not unfrequently the amateur, elated with the applause of the drawing-room, pants for that of the theatre, where even his rivals have told him that he would make his fortune. But his voice will not pierce the barrier of the orchestra, or, if it does, he finds his critics in those who have no selfish interest in overlooking defects, or lavishing applause. And then the poor deluded victim of friendly and foolish counsels finds his true level, and troubles the world of genius no more."

THE VICTORIA THEATRE.—The pantomime of the "Yellow Dwarf" continues to attract large audiences, and the admirable acting of the company generally elicits frequent applause. To-day there will be an afternoon performance, which is announced to close at half-past 5 o'clock, so that those who come from Newtown, Petersham, and other suburbs in the vicinity of the railway line will have an opportunity of returning by the evening trains.

PAYMENT FOR LEASES OF AURIFEROUS LANDS.

[FROM A CORRESPONDENT.]

A MEETING was held at Ray's, Star Hotel, Wattle Flat, on Tuesday evening, 7th instant, to take into consideration a proclamation, published in the *Government Gazette* of 26th November, in reference to the payment of the rent of leased auriferous tracts.

Mr. A. CARNEGIE, being elected chairman, explained the object for which the meeting had been convened.

Mr. MUNGAN proposed the first resolution,—"That, in the opinion of this meeting, the proclamation published in the *Government Gazette* of the 26th November, 1872, to the effect that the rental of leases of auriferous tracts applied for under the Gold Fields' Regulations of March last, or subsequently brought under the same, will be due for the ensuing year, twelve months from date of application, is an act of injustice, being an attempt on the part of the Government to enforce the payment of rent from the time of application, instead of from the time of issue of the leases, an act which is not in conformity with the gold-fields' regulations, and opposed to the spirit and practice of all gold-fields' legislation since 1858." Mr. Mungan in proposing the resolution expressed a hope that his brother miners would see the necessity of immediate action in this matter; the Government seemed to think that the miner would stand any imposition, and this evidently was an attempt at extortion. All those who had been in the habit of taking up leased tracts since 1858 could testify that on all occasions, while the Government had demanded a deposit on application, they had never attempted to ask for payment of the lease until that lease was granted, and a receipt for payment was only given when the lease was granted; the thing was simply ridiculous to ask payment for that of which they had never given legal possession. True, it might be said that they had liberty on payment of the rent to work the lease; certainly they had at their own risk, for there was no certainty till they held in their possession the Government grant. If they were to be guided by all previous legislation on this subject they could only interpret the second part of section 128 of the existing Gold-fields' Regulations thus, that lodging the rent for the year in advance was only substituted for the former lodging of a deposit, and was only held by Government as a deposit. Until that lease was granted, nothing could be more clear when in connection with this clause they took the receipt, Schedule T, in which it is distinctly stated that this rent lodged in advance is accepted by Government as a deposit. On speaking on this matter to Mr. Commissioner Johnstone the other day, he said it was no use petitioning the Government about it, as by this interpretation of the Act the Government would lose an enormous sum, and they are determined to collect it." He (Mr. Mungan) trusted however, that the miners of Sofala and Wattle Flat, although a small and much-neglected portion of the gold-fields, had spirit enough to resent such an attempt to impose on them.

The motion was seconded by Mr. W. CAMPBELL, J.P., and carried with demonstrative applause.

Mr. FRANK MILLER proposed the second resolution,—"That, in order to give expression to the feeling of dissatisfaction with which such a course on the part of the Government is viewed by the mining community of Sofala and Wattle Flat, a petition be drawn up for signature, and that a deputation be appointed to present the same to the Honorable the Minister for Lands." The motion was seconded by Mr. A. FIELD, and carried unanimously.

The third resolution was proposed by Mr. CRAIG,—"That a committee be appointed, consisting of nine gentlemen, residents of the district, who shall elect from their number a secretary and treasurer to conduct all business connected with drawing up and forwarding the petition, and raising subscriptions for defraying expenses in furthering this movement, and that a subscription list be now opened." Seconded by Mr. A. GROSBEND, and carried.

Mr. H. HAY proposed the fourth resolution.—"That, in order to make certain of our position in this matter, the opinion of counsel be taken as to the meaning of the Act." Seconded by Mr. ALLERTON, and carried.

A committee having been appointed, with a vote of thanks to the chairman, the meeting concluded.

The meeting was largely attended, and the various resolutions were most enthusiastically received.

SYDNEY CUP.—Jav'lin was scratched for the Sydney Cup at 11 a.m., and Eli at 12.55 yesterday.

A MORALITY SOCIETY.—A correspondent deplores the existence of so much vice in the youthful portion of the population of both sexes, and thinks that it may be to some extent remedied by the establishment of a morality society. He writes in deep earnestness, and calls on the public to take up the subject in that spirit of faith in its usefulness which will ensure success.

SERIOUS ACCIDENT.—A miner named King (says the *Hill End Observer*) was the unfortunate victim of an accident in the Rose of England mine last week. It appears he was engaged in repairing the ladder-way which had been injured during the time the mine has remained idle by stones, &c., falling down the shaft. King was re-splicing one of the ladders when the one he was standing upon gave way, and falling with it he was precipitated a depth of some 40 feet down the shaft. It is supposed he must have fallen upon the fractured part of the ladder in his descent as he sustained severe injuries from which he suffered greatly when first conveyed to his home. The sufferer is recovering.

QUEENSLAND BANKING BUSINESS—The *Courier* says the tenders for the banking business of the Government were opened and adjudicated upon at the Treasury on Saturday last. Tenders were sent in by the various banking corporations having branches in Brisbane, with the exception of the Commercial Bank. The terms upon which the unsuccessful tenderers offered to transact the Government business we have been unable to ascertain. The tender of the Union Bank, which was accepted, takes effect from the 1st April, 1873, and is as follows:—Overdraft allowed, £250,000, at minimum discount rate for three months bills. The interest allowed on the current account at Brisbane is 3 per cent. under discount rate for three months bills, and at London 1 per cent. under discount rate for three months bills. The interest allowed on fixed deposits is the current rate up to £150,000; above that sum, ½ per cent. under current rate for every additional £50,000. The rates of exchange are:—From London, par; to London, ¼ per cent. under current rate. From and to other colonies, free. On remittances within the colony ¼ per cent. is charged. The commission on payments made in London are as follow:—On half-yearly interest on debentures, ½ per cent.; on payments, including bills of lading and receipts, &c., ¼ per cent.; other payments, free. On payments made in the colonies the commission charged is:—On half-yearly interest on debentures, ½ per cent.; on retiring Treasury bills, &c., ¼ per cent.; other payments, free. The exchange on Government cheques is ¼ per cent.

MARAVILLA COCOA.—OPINIONS of the Press.—"Those who have not yet tried Maravilla will do well to do so."—*Morning Post*. "It may justly be called the perfection of prepared Cocoa."—*British Medical Journal*.
MARAVILLA COCOA.—The *Globe* says:—"Taylor, Brothers' Maravilla Cocoa has achieved a thorough success, and supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For invalids and dyspeptics we could not recommend a more agreeable or valuable beverage."
HOMŒOPATHIC COCOA.—This original preparation, which has attained such a world-wide reputation, is manufactured by Taylor, Brothers, under the ablest homœopathic advice aided by the skill and experience of the inventors, and will be found to combine in an eminent degree of purity, fine aroma, and nutritious property of the fresh nut.
SOLUBLE CHOCOLATE.—Made in one minute without boiling. The above articles are prepared exclusively by Taylor, Brothers, the largest manufacturers in Europe, and sold in tin-lined packets only, by Storekeepers and others all over the world. GOVERNMENT GAZETTE.

THE following notices appear in the *Government Gazette*, published yesterday:—

GOLD-FIELD.—His Excellency the Governor has proclaimed that the following shall be deemed a gold-field within the meaning and for the purpose of the Act, that is to say:—Counties of King and Murray—The gold-fields on Crown lands within the following boundaries: Commencing on the right bank of the Yass River at the south-west corner of J. Booth's 33 acres, parish of Nelanglo, county of King, at the junction of Five-mile Creek with that river; and bounded thence on the north by the south boundary of that 33 acres, and the north boundary of portion 20 of 91 acres adjoining that 33 acres, being a line bearing east 40 chains, to the north-east corner of that 91 acres; thence by part of the east boundary of that 91 acres bearing south to the southern water-shed of Five-mile Creek, thence by that water-shed and the water-shed dividing that creek from Nelango Creek north-easterly to Mount Chaton; thence by the Mundoonen Range easterly to the range forming the western water-shed of Lake George; on the east by the western water-shed of Lake George southerly to the north boundary of C. Brook's 912 acres, parish of Majura, county of Murray, adjoining the west boundary of P. Hill's 4000 acres at Bungendore; on the south by the north boundary of that 912 acres and its westerly prolongation, forming partly the north boundary of A. Andrew's 640 acres and the south boundaries of W. Guise's two portions of 640 acres, bearing west to the Yass River; on the west by the Yass River downwards, to the point of commencement. To be called "The Gundaroo Gold-field."

APPOINTMENTS.—Mr. Malcolm M'Taggart to be Police Magistrate at Walgett and Birce, and Clerk of Petty Sessions at Walgett, vice Betteridge; Mr. David Grant Forbes, Barrister-at-Law, to be District Court Judge and Chairman of Quarter Sessions of the South-western District for the year 1873, during the absence on leave of Mr. Henry Ralph Francis. The undermentioned gentlemen have been appointed additional members of the Public School Boards in connection with the Public schools established at the places specified, viz.:—Hay, Mr. Joseph Ede Pearce, J.P.M.; Myrtleville, Mr. Patrick Ignatius Barry.

APPROACHING LAND SALES.—Crown lands have been advertised in the *Government Gazette* for sale at the undermentioned places on the 17th February:—Albury, Armidale, Berrima, Cooma, Casino, Coonabarabran, Cassilis, Deniliquin, Gundagai, Gosford, Gunnedah, Moama, Molong, Mudgee, Muswellbrook, Narrabri, Queanbeyan, Singleton, Tuena, Windsor. At Albury, Casino, and Moama the sales are to be continued on the 18th.

A REVEREND IMPOSTER.

(From the Northern Argus.)

CONSIDERABLE excitement was occasioned yesterday in town by the report that a person known as the Rev. Mr. Miller, and at the time reported to have come into a large fortune, had been arrested, and was then an inmate of one of the cells in the lock-up. The thing, owing to the sacred calling of the self-dubbed reverend, was at first looked upon as a *canard*, until inquiry proved it to be a fact. It appears that the young swindler came from Hobart Town by one of the traders for guano to Lady Elliott's Island, thence to Rockhampton by the schooner Annie, where he has been living in a cottage on the north side of the river for some months part, and recently took up his residence in the town preparatory to commencing operations on a liberal scale. He then shaped his course well, and with the sagacity of a Barrington observed a fine field for operations. A happy thought struck him, and he fixed upon "religion" as being the most suitable cloak for his scheming. He introduced himself to the Congregationalists, and with a *mauvier in modo* worthy of a sheriff's officer in the garb of a footman, presented himself as a young man who had been trained to the church, and was compelled to leave home for the good of his health, or we should surmise for the good of his country. He was thereupon kindly received by the pastor of the church, and with the concurrence of the committee allowed to officiate, and made his debut with marked success, his preaching being considered good though somewhat sentimental. So much was his ability recognized that during the Rev. Mr. Jenkyn's absence north, he became that gentleman's *locum tenens*. For some time he continued to discharge the duties of his calling with activity and zeal, visiting and comforting the sick and feeble, alleviating their wants both in ministering to the body as well as to the soul, and practically acting the good Samaritan by liberal donations of medical *comforts* in the shape of the best port wine and other supplies, which he levied on the credulous tradesmen of the town in furtherance of his good work. His exertions to fill the Congregational church were unceasing, and crowned with success; so much so, that a fund for its enlargement was started, and many of our readers will remember the grand soirée given in its aid, at which the Rev. William Miller delivered an harangue in the form of an address (showing that the devil can occasionally quote Scripture for his purpose). He had now introduced himself pretty freely amongst his congregation, became a regular visitor in their private circles, and was soon an especial favourite, for "he was such a nice young man," and so good. He then made application—we believe, backed up by strong local influence—to the Rev. Mr. Griffiths, who, it appears, fully intended to have him installed as one of their missionaries in the North; but the obstacle to his appointment was the production of his credentials from home, these were to arrive by each English mail, and as yet have never reached him, nor is it likely they ever will, unless some come from her Majesty's Home Office, which, from what we can hear, has the rev. gentleman's name borne on its archives. The committee of the Church became persistent in their requirements for the production of these vouchers of his calling, but were as persistently put off until the "next mail." Mr. Miller was during this time living in suitable style at one of our principal hotels, and, in view of his proceeding on a mission up country, purchased from the proprietor a pair of handsome chesnuts, intending to drive them in a buggy of the latest style, which he had ordered to be made. Meanwhile the mail came in, and immediately after the Rev. William Miller announced that, by advices from home, he was informed of the decease of two uncles, both married men, and, secondly, that they had very kindly left their deserving nephew a fortune of £1400 per annum (!!!); this was glorious news, and, like a good Christian, Mr. Miller returned at the earliest opportunity some of the many kindnesses he had received at the hands of his friends, by showering on them presents of the most valuable description; this he was enabled to do by spreading far and wide his good fortune, the truth of which nobody doubted, and as it came from the mouth of a minister it was put down at once for gospel. The reverend gentleman then found that he had made such a favourable impression upon the public gullibility that he visited shops of every description, and ransacked the jeweller's cases for the choicest watches, brooches, rings, and trinkets, which were readily handed to him, and such was the belief in his soundness, that he mulcted one establishment alone to the tune of £80, and could have got as much more if he had asked for it. These presents he shared liberally amongst his lady friends, and on Christmas Eve we perceived him purchasing a large stock of handsome books that he also obtained on his reputation, and which were likewise distributed amongst his friends as souvenirs. On the same day the English mail arrived, and the next day it was heralded about that Mr. Miller had received the first portion of his fortune in the shape of two £500 Bank of England notes. On Friday he obtained several cheques from some of his immediate acquaintances, giving in return his own cheque, stating that he was unable to complete his monetary arrangement, until Monday with Mr. Gilfillan, when he could draw against the notes. With the funds thus obtained Mr. Miller quieted the importunities of some noisy creditors, freely spending the balance in treating his friends. At this juncture the committee of the church wrote to him that as the mail had arrived, they required the immediate production of his credentials, but another postponement from the rev. gentleman created suspicion, and on Sunday when he presented himself at the pulpit he was very properly refused admittance and ordered out of the church. On Monday evening Mr. Buzacott saw him and demanded an explanation, but, as he was then about taking an equestrian exercise, promised to meet Messrs. Reed, Ferguson, and Buzacott the following (Tuesday) morning at half-past 10, but, instead of keeping his appointment, preferred going to the lock-up, and requested senior-sergeant Judge, to take him into custody, saying "He knew he had done wrong and ought to suffer for it." The sergeant inquired what he had been doing, when he replied "that he had been receiving money under false pretences." Judge thinking the man was insane, told him he had better go and see a doctor, but Miller said he would wait. Mr. Buzacott, J.P., we believe went to the police and requested them to take him into custody, but they refused to do so unless a warrant was procured for his arrest. Upon this steps were immediately taken in the matter, and an information speedily sworn by Mr. John Ferguson, who was one of his victims, and on a warrant being issued,

Commercial affairs are rather dull, the demand for goods light, and the receipts disproportionately heavy. Seven foreign cargoes have arrived this week, including three from London. We have also had a large import of new wheat from South Australia at an earlier period of the season than usual, and prices have consequently become rather unsettled. Small sales of flour have been made at about £14 10s. Nothing doing in wheat. Candles are inquired for at 10½d. for best brands, and from 10d. upwards for good second-class. In Dundee goods we note a steady demand for canvas; corsnacks are firmly held as the bulk of what were in stock here have just been cleared out for Adelaide. Bulk and bottled ale and bottled stout scarce and very salable. Brandies and other spirits flat. In groceries and oilmen's stores there is nothing doing. All descriptions of iron, except galvanized, held for higher rates. Sugars are rather easier, and teas very dull. Small trade sales of well-dressed rice are being made at extreme rates. The shipment of Oregon timber ex Amelia has come to a very bare market, and negotiations are pending which will probably result in the entire cargo being sold for Melbourne.

In the report of sales of the ore yesterday, that from Lyngarra mine should have been 54·6 per cent at £44 15s.

The *Melbourne Argus* of Monday says:—

In the import market throughout the forenoon business has been quiet, and little of an interesting or important character has been allowed to transpire. In breadstuffs an ordinary trade inquiry is reported; small parcels of flour are moving off at £14 10s to £15 5s. No demand for large lines, however, is experienced. In wheat there is not much doing; the few small parcels of new offering find buyers, but millers do not care to purchase freely at the rates, ruling anticipating a lower scale of prices ere long; cash sales have been made at 8s 9d., and we quote up to 6s, according to terms and quantity. Oats are in fair request; we hear of a parcel of feeding to the extent of 750 bags having changed hands at 3s 1d to 3s 2d. Maize has been hanging very heavily, and an easier feeling is allowed to prevail at 2s 9d, which holders have been compelled to accept before any progress could be made; we understand that a great portion of recent arrivals has been cleared out. We quote up to 2s 10d to 2s 11d for sma'l lots. We learn of a good inquiry for cornsacks. Sales have been made at 16s, and offers to clear out large holders at 13s 9d have been made and refused. In liquids we note an improved demand for Hennessy's case brandy, and considerable parcels have been quitted at 22s 7½d to 23s 9d, while in some instances as much as 30s has been got. Further sales of O'Brien's dagger stout have come under our notice at 12s. A private telegram to the Melbourne Meat-preserving Company from their London agent, dated 3rd January, has been received to-day, which states, "Less demand for preserved meat; limit shipments of mutton; demand is falling off." The clearances of gold during the past week and since the beginning of the year amounted to 101,700 oz., of which 9424 oz were transhipments from New Zealand. During the corresponding period of last year the clearances amounted to 103,760 oz, of which 13,578 oz. were the produce of New Zealand.

MINING.

FRIDAY EVENING.

A very dull day in the Share market. A few sales of copper at 43s. for Cobar, 18s. for Cowflat, and 10s. to 10s. 3d for Normanby. Gold shares very dull. Carroll and Beards changed hands at 36s. to 36s. 6d., Krohmans at 56s., and Rapps at 18s. to 18s. 3d. Williams were dealt in at par, and there was an improvement in Band and Albions, with sales at 42s. to 47s., closing with sellers at 45s. net.

The secretary of the New South Wales Brokers' Association reports the following sales:—Grenfell Consols, 15s. 9d.; Southern Cobars, 2s. 9d., 3s.; Cobars, 46s.; Rapps, 18s. 9d.; Band and Albions, 42s.

The course of sales for the past week has been:—Bulli (coal), 12; Shale and Oil, 32s., 32s. 6d.; Cobar, 43s; Boolboonda (copper), 6s. 9d., 7s., 6s. 3d.; Normanby, 11s., 10s. 6d., 10s., 10s. 3d.; Cowflat, 18s.; Mount Perry, 30s., 29s.; Cowflat 17s. 9d., 17s. 6d.; Peak Downs, 4¾, 5, 5¼, 5¼, 5½; S. Cobar, 2s. 3d., 2s. 6d., 3s.; Browns (gold), 16s., 15s. 6d., 15s. 3d.; Beyers and Holtermanns, 69s.; Carroll and Beards, 36s. 6d., 35s. 6d., 36s. 36s. 6d., 36s., 36s. 6d.; Cock, Attwood, and Dwyers, 20s.; City of Sydney, 15s.; Fischer and Beards, 18s.; Grenfell Consols, 15s. 3d., 15s. 6d., 15s.; Krohmanns, 56s., 56s. 6d., 56s., 55s. 9d., 56s., 56s. 6d., 56s.; Marcolini, 17s.; Monte Christo, £75; Repps, 17s. 6d., 17s. 9d., 17s. 6d., 17s. 3d., 17s. 6d., 17s. 9d., 18s., 18s. 3d.; Paxtons, 14s.; Rawsthornes, 15s.; Star of Peace, 29s.; Williams, 18s., 19s. 6d., 19s. 9d., 20s.; Bathurst, 18s.; Band and Albions, 55 ... 41s., 41s. 9d., 42s., 43s., 45s., 47s.; Ancient Briton (tin), 8s.

At a special general meeting of shareholders in the Ruby Creek Tin Co., held this day, a proposal from the promoters to reduce the capital one-half, and to make all shares equal as regards dividends, was discussed, but no decision being arrived at, the meeting was adjourned for a week.

The directors of the Cowflat Copper Mining Company, accompanied by Captains Phillips and Holman, have lately visited the mines near Bathurst, and express entire satisfaction with the operations now being carried on, and with the prospects of the mine generally. Captains Phillips and Holman (copper miners of great experience) are still at the mine, making surveys and preparing reports to be placed before the shareholders at the half-yearly general meeting, to be held on the 30th instant. The managers report Messrs. Montefiore, Joseph, and Co. to be in receipt of a telegram from London, dated the 8th instant, advising the sale of twenty tons of the Cowflat Copper Mining Company's copper, shipped per Nimeveh, at £96 10s. per ton.

Normanby Copper Co.—Mr. Thomas Evans is rapidly getting the plant shipped to commence his carrying contract with the company. The smelting works are to be completed and at work by the first of next month; the copper should be soon coming to hand.

Royal Alfred G. M. Co.—The mining manager reports to the secretary as follows:—"The shaft is sunk to the depth of 62 feet, and is now being timbered. We have a little water in the shaft, but not much. The slate we are now on is rather hard, and mundic well mixed through it."

The Abbotsford G. M. Co.—The mining manager reports that the contract for sinking 50 feet of the shaft is completed perpendicular, and even to his entire satisfaction; the rock having changed to blue slate, glittering with mundic and quartz leaders in the bottom. During the late rains 16 feet of water flowed into the shaft, but in a little time escaped through the quartz veins which lead to the main reef, and which cannot be far distant, all the indications being very likely for gold.

The Phœnix G. M. Co.—A special general meeting of the shareholders in this company was held on the 8th instant. A report from the mining manager, together with plans, &c., were laid before the meeting, from which it appeared that the shaft, which is down about 121 feet, is a most creditable piece of work; the whim is of first-class character, and all the appliances for developing the claim in a forward condition. Numerous lenders have been met with, and at a further depth of 20 or 30 feet it is intended to cross-cut, when good results are anticipated. The shareholders present expressed every confidence in the mine, and, taking into account its close proximity to Paxton's, Bromley's, Star of Peace, and other rich claims, resolved to carry on the work with the utmost vigour.

The managers of the following companies report:—Sydney Tin Co.: Dividend amounting to £3000 just paid; work suspended for a short time consequent on floods, and to make arrangements to work the ground on a better system. Hellerman's G. M. Co.: Crushing recommenced on 27th December; result will be known in a few days. New Eldorado Co.: Shaft nearly bottomed; prospects good. Marshall's Rich Vein Co.: Shaft sinking on the two proved veins, and large shaft to thoroughly prove the ground. Some very rich specimens have been received from this mine and can be seen on application to manager in Sydney. Great Southern Gold Co., Gundagai: The mine is being opened out in a proper manner; the machinery is nearly all on the ground, and there is every reason to believe that the crushings will give very good results. It is hoped the stamps will be at work during March next. City of Sydney Quartz Co., Tuena: Machinery is nearly ready for work; there are about 350 tons stone to commence upon, some of which is expected to prove very rich. The mine is being opened in a systematic manner, and the company's prospects are first-rate. Adelong Nuggetty Reef Co.: This company's mine has been opened in a first-class manner; the work is second to none in the district. The mining manager is in a position to raise stone as soon as crushing power is available. This will be shortly, as arrangements have been made with Crown Prince Co. to crush for the company. Biraganbil G. Co.: The ground of this company is being opened out on a large scale; 350 oz. of gold have been obtained from the workings, in opening out the ground, bearing a good profit. Dividends will not be immediate, but the success of the company is certain, when all the arrangements for sluicing are complete. Union G. Co., Merrendee: The directors purchased first-class machinery for this company, and appointed a good man to manage the mine. The machinery is nearly all on the ground; the mine is being well opened, and there is plenty of stone. Murchison Co., Dirt Holes: The reef on the ground of this company has been struck upon, showing a good body of stone; a trial crushing from which will be had shortly, and result be reported. Green Valley G. Co.: The shaft of the company, now working on the Homeward Bound line, is now down 174 feet, and drive is being put in to catch the H. B. reef. Wynyard G. Co.: The works of this company are suspended for the present, pending arrangements for working on a more extended scale, and raising the wash-dirt more economically.

Pride of the Macquarie G. M. Co.—At the half-yearly general meeting of this company, it was unanimously resolved to raise the nominal capital to £20,000, the present shareholders retaining all the shares, and increasing the working capital by £1200, exclusive of the moneys already paid up—viz., £900. A tunnel has been driven 66 feet and a shaft 30 feet on gold-bearing veins, assaying 12 oz. per ton. This company's prospects are very promising.

RAILWAY "MANAGEMENT."

TO THE EDITOR OF THE HERALD.

SIR,—After a long period of torpidity I perceive that the inhabitants of Ashfield and Burwood have awakened to the inadequacy of the accommodation afforded them by the railway authorities; they have, however, modestly contented themselves with asking for a few additional trains daily.

I think it is high time that the public generally should awaken to the so-called management of a property which has cost so many millions of borrowed money.

For my part, however, the only suggestion I make is that the Government should send home for a competent traffic manager, or commissioner, or whatever may be his title; one who has been accustomed to the management of railway properties at home on something like commercial principles, not one who has been trained in the "how-not-to-do-it" school.

I consider that, to amend the present time table as asked for by the Ashfield deputation would be simply absurd. The whole thing must be reconstructed; for instance, look at the eccentric times at which the trains leave Sydney for the suburban stations, viz.—5.0, 6.45, 8.25, 10.15 a.m., and 1.15, 2.15, 4.30, 5.34, 6.40, 7.0, 10.0, and 11.30 p.m.

One would certainly think that from the Metropolitan Station, hours, half or quarter hours, would be adhered to.

Then look at the fares. In a country where coals are remarkably cheap and labour certainly not high, and the country roads not very good, we find that the omnibus rates are less by half than those by the railway; thus:

By omnibus from Petersham to Sydney	3d.
By rail from Petersham to Redfern—	
First class	8d.
Second class	5d.

Any parcel sent by the train is charged for in like proportion. Thus, for a small package of drapery, weighing about 20 lbs., from Redfern to Petersham, I paid 9d., whereas the Parcels Delivery Company would have brought it from my office and delivered it at my house for 6d.

Now, what has been the result of this state of "management" during the last ten years—a sufficient time for a fair test?

First. The population of the suburbs along the line has increased slowly in comparison to those within reach of omnibus accommodation.

Second. At one of the suburbs (Newtown), the traffic has almost vanished. A few years ago the platform there used to be literally crowded, now scarcely a passenger is ever seen; while even at Petersham, which has so much increased lately, the railway traffic is almost at a standstill, while both lines of omnibuses are always crowded.

During the last few years medical men have very much recommended Ashfield and Burwood as desirable localities for delicate constitutions, and there has been great inquiry for houses in those places; but in consequence of the infrequency of the trains only those whose time is entirely at their own disposal can manage to live there, and the high rate of fares has prevented many others going, consequently those two suburbs are decidely select instead of having comparatively large populations.

A correspondent in this day's *Herald* suggests a platform at the Sydney end of Newtown. This might be very well with proper fares if the railway was extended to Hyde Park, as it should be; but with the Sydney station at Redfern, and fares to these higher than by omnibus to Sydney, I do not think it would be much used.

We are frequently told that it is the practice of the English railway companies to give a free ticket to anyone who builds a house near their *line*. If these companies, who *look* we should think for immediate dividends, act upon such liberal principles, surely we might look for something similar from the Government, which can afford to look more to the future; but instead we find a style of "management" such as might be expected from an innkeeper at a watering place.—make the most of your customer while you have got him, let him be both fleeced and starved.

I am, Sir, your obedient servant,
GEORGE PILE, Jun.

Norwood, 8th January.

HEALTH OF THE CITY.

II.

One self evident improvement, should we continue to use our present system (or rather systems) of sewerage, would be the prompt erection of tall Ventilating Shafts for every distinct area of drainage now briefly described. At least fourteen of these shafts, or chimneys, seem to be almost indispensable, and certainly none of them should be less than one hundred feet in height—occasionally even much more, according to the nature of the locality of the particular area to be "ventilated," and of the adjacent portions of the city separately drained—that is, not having any connection therewith by subsoil drainage. For two of the areas of drainage, on account of their great extent, such a means of escape for the deleterious air is most urgently required—namely, for the Great Hay-street Sewer (K), and for the United Main Sewer of Woolloomooloo (N). And the *raison d'être* for such an improvement—unless the people of Sydney resolve to shut their eyes as well as hold their much-enduring noses—must, in the presence of facts, become indisputable. Both of the above-named shores are sewers of deposit, collecting the most offensive forms of sewage over two extensive areas, and both subject to the very material disadvantage of a most inconvenient dead level, or very insignificant fall indeed, at the lower extremity or outlet. Owing to this grave insufficiency of fall in the wider parts of the sewer combined with the action of the tide—and to the injudiciously adopted *shave* of the sewer itself, in the case of that of Hay-street—the excreta and the house sewage generally, in the main shores (K and N), are only too prone to be vexatiously delayed, until, in this warm climate, fermentation, or (to use more popular language* *putrefaction*, sets in; poisonous gases being thereby rapidly generated, and that to a very dangerous extent. The generation of these gases is, it will be remembered, actually rather increased than lessened by irregular discharges of water into the sewers; unless, indeed, there be a heavy rainfall, and that may often only cause an increased *stir* (reminding one of Sancho Panza's favourite proverb), or perhaps only remove the unpleasant deposits a little lower down without sweeping them out altogether, thus actually aggravating the evil. Mixed sewage in solution, if the matter be in a certain stage of putrescence, will for the time, and in the sewers, be more dangerous than if comparatively solidified; and the poisonous gases and miasms will undoubtedly be then more apt to disengage themselves therefrom and gradually to *go up* through the main sewer, into the superior intercepting sewers; and through those intercepting sewers into the drains; and through the drains even into the houses—if the several ends of the house drains be not very carefully secured by "flap-traps," or "syphon-traps." At such large disengagements of gas, the *higher* the locality—that is the more remote from the seaward end, or "mouth," of the sewer—the greater and the more dangerous will be the evil. Thus it is quite possible, nay perhaps even probable, that at the southernmost connection of the whole of the Woolloomooloo area, near Hill-street, there may be such a concurrence of circumstances as shall cause *miasmata* from nearly the whole area of Woolloomooloo to *rise* directly to that point; and by entering one house, through an open house-drain, there to kill an entire family by typhus. The cleanliness or otherwise of the family, or families, so fatally attacked, would clearly have nothing whatever to do with the matter. The people would be virtually and inevitably poisoned, because the foul air from the district below them (with which they are connected by drainage) has, in obedience to one of the fixed laws of nature, *risen*, like smoke coming up through a shaft. And there are other considerations, connected with this appalling state of things which must not be overlooked. In its ascending passage from the wider portions of the united sewer of Woolloomooloo—we will take that for the illustration—the more secure the residents below shall have made their house-drains, by "flap-traps," or (by well-watched and well-supplied) "syphon-traps," the more dense and deadly will be the volume of what must rise, and continuously flow upwards over the descending sewage. And the danger of this thing is the more imminent, inasmuch as the offensiveness of the *smell* of such air does not always appear to be at all proportioned to its malignant character. That is indubitable. The nose may be a good detector, but (like the best of detective officers) it may be misled, and then its evidence is certainly more embarrassing than the absence of any such testimony. From a patient consideration of what is here sketched out (incontrovertible facts) the reader may perhaps be enabled, in some degree, to appreciate the urgent necessity that there is for ventilating shafts to draw off the dangerous mephitic vapours necessarily generated in all large sewers. It is quite possible that one large and lofty shaft, somewhere near Crown-street, Surry Hills, might be made to serve both the great sewers which have been specially mentioned—supposing that hermetically sealed tubes were laid down to carry the "risen" noxious exhalations from the tops or ends of each of the most remote connections, to the site of the intended shafts.

In any case, the effectual ventilation, through chimneys or shafts, of the putrefying deposits, temporarily lying in each of the main sewers or shores of this city, should most certainly be promptly attended to. All attempts at deodorising or disinfecting, by the agency of chemicals, that *arrested sewage* (which, in spite of every vigilance, precaution, and wisely-devised appliance, *will* lodge more or less in all main sewers), is mere empiricism and learned folly,—an ostentatious quackery, prompted by hopes that are utterly visionary, something that may be very amusing (possibly instructive) in a chemist's laboratory; but, on a large scale, an experiment which must be not less expensive than dangerous, and as such not worthy of being allowed any further trial. [See minutes of Board of Health—sewerage and drainage of towns, 1852—page 58.—Compare also Ure's Dictionary, "Sanitary Economy," vol. 3, page 620—plan of Mr. M'Dougall for disinfecting sewers to the Board of Health.] The suggested use of the tall chimneys of city manufactories is open to these, and many other objections; amongst which not the least important is the fact that the chimneys of manufacturing establishments in this city, where they remain in use, have of course been built for the exigencies of the manufactory alone, and without any regard to a site which must be chosen strictly for the purpose of ventilating a particular local system of drainage. Besides which there are a thousand difficulties connected with the presumed use of private property for such a public purpose; difficulties, also, as to how the noxious gases should be so introduced towards the base of any such flues as that they may be readily and safely consumed; difficulties, as to whether any application of heat might not yet more dangerously accelerate the formation of such gases, and so forth. It seems, therefore, to be pretty clear that, amongst our other improvements, the building of ventilating shafts for at least our larger areas of drainage in this city, is so indispensable, that it cannot much longer be postponed.

Perhaps the reader will inquire what is the nature of a ventilating shaft, and how does its action so far clear the sewer it serves as to minimise its danger? We shall be happy to answer this question, and some few others in a future paper.

* "Putrefaction" is the spontaneous decomposition of albumenoid or protein and gelatine compounds when exposed to a limited amount of air.... These bodies decompose at any temperature between 32° and 140° Fahrenheit (0°—60° C.). Their decomposition begins by the action of the oxygen on the air, so that a partial oxidation and gradual disruption are simultaneous. The result of this is a number of liquid and gaseous compounds; carbonic acid, hydrogen, nitrogen, ammonia, sulphuretted hydrogen, phosphuretted hydrogen, carburetted hydrogen, acetic acid, and lactic. Also butyric and valeric acids are formed. But these are not all, as there are compounds arising from putrefaction which have, even in small quantities, a destructive action on animal life, far beyond any of the substances mentioned."—*(Ure, Vol. III., page 527.—Putrefaction.)*

ARMIDALE.

[FROM OUR CORRESPONDENT.]

THE WEATHER.—For the past week or so, the weather has remained dry and warm, much to the delight of the farmers, as harvesting is now general. The crops will not be as was anticipated some short time since, on account of the rust having made its appearance in many localities, and in places where from 25 to 30 bushels were expected to the acre, not more than eight or ten will now be obtained. Reapers are being paid from 16s. to £1 per acre; and in some instances 20s. is being paid. The hay crop is now almost being saved, and seldom has a heavier crop been mowed. Grass and water are abundant.

PASTORAL NEWS.—Shearing is not yet over in this district, being greatly interfered with by the heavy rains that visited us some short time back. But should the fine weather (that we have experienced of late) continue, most sheds will finish ere long. The clip generally is spoken of as being very good. To-night (Wednesday) a steady, soaking rain has set in from the east, with indications of continuing.

THE LITTLE RIVER GOLD-FIELDS.

TO THE EDITOR OF THE HERALD.

SIR,—Having to pass directly through the centre of the rich gold-fields of Little River, while on my way up to the tin-mine of New England, I thought I would devote a day or two to a personal examination of the many rich reefs in this district, which, though so recently opened up, are justly beginning to attract the attention of diggers and the mining public generally. It is unnecessary to expatiate upon the beautiful scenery of the country through which we pass while on our way up from Grafton, nor upon the engineering skill displayed in the construction of the Newton Boyd Road, over forty miles of which we travel before arriving at the "diggings," as these have so often been dwelt upon by abler pens than mine. Suffice it to say, that I arrived at the scene of operations, and found that there were already several hotels opened for the accommodation of the public, some of which would do credit to much older places than the township of Dalmorton. I proceeded, as soon as possible after arrival, to inspect the various claims on the line of the Perseverance reef, the first worked in this district, with the exception of the Union and the Lone Star reefs, of which more anon. The Prospectors' claim, which I hear has been sold for £16,000, has two shafts down—one about 50 feet, and the other 80—connected by a drive at a level of 50 feet. The reef is very wide, and the stone looks well. It is unnecessary to say anything more of this known rich claim, except that some 25 tons of stone, crushed at Mr. Mills's battery, averaged over 5 oz. per ton. No. 1 North on this line is sinking, but have not yet got the reef. No. 2 has a large reef, the stone from which looks well. No. 3 sinking. No. 4 sinking, but is (I believe) in dispute. We next come to the justly celebrated No. 5 claim (now the Tower Hill Gold Mining Company). They have two shafts down, and are ready to stope out between them. They will have a large quantity of stone raised by the time their battery (the site of which is now being prepared) is ready to begin operations. Three tons of unpicked stone from this claim, crushed in Sydney, averaged over 5 oz. per ton, and one ton of picked stone yielded 26 oz. No. 6 has the reef very wide and rich; it being supposed to be equally as good as No. 5. Nos. 7, 8, 9, and 10 are all sinking, but did not go up to them. The Argyle Company, beyond No. 10, has also commenced operations. Descending the hill again, we come to No. 1 claim, on the Prospecting Area Reef, supposed to be running parallel to the Perseverance. The stone from this claim looks fine, a crushing of 20 tons averaged nearly 4 oz. They have a full complement of men at work. There are a number of other claims at work on this hill, but it would require too much time and space to give a detailed account of each and every one of them; but I am sure that nearly all of them will ultimately turn out well; but it will require time and capital to develope them. On the following day I crossed over to the south side of the river, and visited the Morning Star claim. This looks well, having a reef 3 feet wide in one of shafts, out of which they have taken some fine stone. They are at present driving from the level of the river so as to catch the reef at a low level. This claim has, I believe, been purchased by a Sydney gentleman. The Golden Gate is also on this side of the river, but I did not have time to go down to it. I next visited the Golden Spur Reef, situated on Pine Creek, out of the bed of which stream a good deal of alluvial gold has been obtained, which evidently came from the reef above. In the Prospectors' claim there are three or four veins opened out, all of them containing splendid gold. They are all evidently making into a large reef, which crops out on the surface of the ground higher up the hill within the Prospectors' claim. This reef has never been sunk on, but the blow of quartz looks well. Some of the best specimens found on the river have been obtained from this ground. There is a tunnel driven on one of these veins a distance of 50 feet, out of which 10 or 15 tons of stone were taken, which if you can judge by appearances will yield well, the gold being distributed throughout the stone which I saw on the heap. A shaft has been sunk 130 feet on the boundary of the prospectors' and No. 2 claims, by the united labour of the two claims (temporarily amalgamated) following a vein all the way down, carrying good gold, the vein being from 6 to 18 inches wide. The leader was making into a large reef at that depth, but at present they are greatly troubled with surface water. One mile higher up the creek is the Maximilian Reef, on which a number of claims and leases have been marked out. In the prospectors' claim, which is the only one at work at present, the reef looks well, being about a foot wide, with a fair sprinkling of gold.

The Liberator Reef, near the Maximilian, has a fine wide reef, with a show of gold that but few claims in the district can excel. There are a great many leases marked out on this line, but the Prospectors' claim is the only one at work—a striking example of the defects of the system of leasing, which so greatly retards the development of all new lines of reefs that are opened up. I afterwards went out to the Union (now the Triumph G. M. Co.) Reef. This was the first reef worked in the district by a party of miners who sold out to a company in Sydney, who have floated it for £16,000, and are now showing what can be accomplished by united capital and energy, with a fine reef to work upon. It is a great pity that a few more of the many fine reefs in this neighbourhood were not in the hands of companies who could bring sufficient capital to bear on them, as to cause them to be speedily developed, to the general good of the district and the shareholders. The Triumph Company have now two shafts down about 80 feet, and have a large quantity of first-class stone at grass. They are hard at work building the dam, and preparing the site for the crushing machine, which is expected up very soon. There are about twenty men employed by this company. The other leases on this line will no doubt turn out well in time, but as yet there has been but little done to them. Lower down the hill is the Lone Star Reef, a beautiful well formed reef, with splendid looking stone. They have a shaft down 50 feet, well timbered, but at present there is no work being done on this line, which is to be regretted, as it is a pity to see such a fine reef lying idle. This being the last reef I visited, I will bring my communication to a close.

PERSONNE.

THE NUISANCE IN COOK WARD.

TO THE EDITOR OF THE HERALD.

SIR,—In justice to the writer of the article appearing in Wednesday's *Herald*, referring to the dead animals lying in the gutter, I for one desire to state that he did not complain without cause. The locality, I consider, is one of the most neglected of any part of the city or suburbs.

If the authorities would take the trouble of paying a visit to Hunt-street occasionally they would find something there that their attention might be directed to, which I dare say would prove very beneficial to the inhabitants of the neighbourhood, for it is no common thing for filth to lie in the gutter for some days, till the stench is almost unbearable.

Trusting that these things will shortly be remedied,
I remain yours, &c.,
PURE AIR.

COMMERCIAL.

PRODUCE CIRCULARS.

MORT AND CO.—Wool: We submitted a catalogue of 1580 bales on Wednesday, and as buyers were more disposed to operate at something approaching a market value than they have recently been, we were able to quit a large proportion of our catalogue at fair prices, our sales this week comprising 1400 bales, of which fleece realised 18½d to 25d, greasy 10d to 12¼d, secured 23½d to 25d. Sheepskins were in large supply and active demand, at about late rates. We sold 49 lots at from 7½d to 9½d, for medium to well-grown, and 3d to 6¼d for pelts and short-woolled. Tallow: The demand was very slack to-day, both for trade purposes and for shipment, and we deemed it advisable to hold over the principal lines on our catalogue until next sale. Quotations may be given at, for mixed £28 to £33, beef £23 to £34 10s, nutton £26 to £36 10s per ton. Hides: We have to report a brisk demand for good conditioned lots, at our sale this morning, when we quitted some 1700, the most noticeable lots of medium weights selling at the following range of prices:—64 at 5d. 128 at 5½d, 98 at 5¾d, 264 at 5¾d, 384 at 5¾d, 176 at 6d, 76 at 6¼d per lb. House hides sold readily this morning at from 5s 3d to 7s 6d per hide, when of good sizes and in fair condition. Leather: Free telegrams quoting the price in Leeds and at Old has had the effect of stopping operations for shipment pending the receipt of further information respecting the home market, and with the exception of a few small lots the sole leather catalogued was withdrawn. For kip, calf, &c., previous rates were readily obtained, but harness was not in demand except at a reduction. Our sales were, sole 10¼d to 10¾d; kip, 10d to 12¾d; calf, 3s 6d to 3s 9d; cow tweed 3s 7d, horse tweed 2s 8½d, harness 14½d to 16½d per lb. Hair in improved request, horse tail ranging from 16d to 23d, and mane 10d to 16d per lb.—January 10.

HARRISON, JONES, AND DEVLIN.—Wool:—2894 bales offered, and 2127 were sold. Messrs. Mort's catalogue embraced two works' sales, which swelled the numbers a little. The sales were more an nusted than for some time past, prices appearing stiffer upon most lots. The sales resulted as follows:—17d to 24d, 1 lot of 7 bales brought 25d; greasy, 10d to 12½d, the latter being for a very superior lot, light and clean; scoured, 17d to 23d. We offered 423 bales, selling 342. Sheepskins: These sold readily at full rates. No material alteration in prices was noticeable, although sales were perhaps a little more spiritied, having ranged from 6d to 9¾d. We cleared fair catalogue at full rates. Tallow: Trade parcels were in fair request, but shipping parcels were entirely neglected. The sales (all trade parcel lots sold), ranged for mutton, 34s 3d to 37s 3d; beef, 33 to 33s 6d; mixed and station, 28s to 30s. Quotations—Best mutton, £35 to £36 10s; best beef, £34 to £35; mixed and station, £30 to £31. Hides: The whole of the auctioneers have now agreed to have the hides swept and sold at per lb., and all offered to-day were sold in this manner at prices quite equal to late sales, notwithstanding the late adverse English telegrams. The sales ranged yesterday as follows:—Best heavy (average about 68 lbs.), 4¾d to 5¼d; heavy (average about 50 lbs.), 5¼d to 5¾

TERMS, Liberal, at sale.

BREWSTER and TREBECK have received instructions from Messrs. Dumaresq to submit for sale, by public auction, on WEDNESDAY, the 12th FEBRUARY, 1873, at their Rooms, Squatters' Exchange, George-street, Sydney, at 11 o'clock,
THE WELL-KNOWN
MOLE RIVER STATION,
situate in the
District of New England,
NOTED FOR ITS FATTENING AND BREEDING CAPABILITIES, and as being one of the BEST-PAYING STATIONS IN NEW SOUTH WALES.
The Mole River, which passes through the centre of the property, is generally running, and CONTAINS MAGNIFICENT REACHES OF WATER, IN MANY PLACES RESEMBLING INLAND LAKES.
THE COUNTRY is hilly and sound, the prevailing timber being silver-leafed ironbark.
With the above will be sold,
3000, more or less, WELL-BRED
DURHAM CATTLE,
of the well-known MO brand, to be taken at £3 per head for all over 6 months old at time of delivery.
BULLS FROM THE STUD HERDS of Bow and Arrow (Captain Russell, Ravenswood), D in diamond (Griffiths, Fanning, Richmond River), T (Tindale, Ramornie, Clarence River), CB&OB over (Baldwin, Namoi River) A.A.CO. (Australian Agricultural Co., Warrah).
Also
16,500 MERINO SHEEP, more or less, viz. :—
3180 breeding ewes
2390 lambs
1420 maiden ewes, 2 years old
2800 mixed hoggets, 1 year old
1450 wethers, 2 years old
1450 wethers, 3 years old
1445 ditto, 4 years old
2730 dry ewes
200 rams.
THE SHEEP are bred from rams carefully selected from the stud flocks of OSWALD BLOXSOME, Ranger's Valley, New England; S. A. DONALDSON, Tenterfield; MARSHALL and DRUCHAR, Glengallan, Queensland; D. GUNN, Pikedale; and A. HODGSON, Eton Vale.
THE IMPROVEMENTS are extensive, consisting of one 6-roomed cottage, detached kitchen, with 2 bedrooms, blacksmith's shop, bellows, forge, and complete set of tools; stockmen's and other huts, beef store, slaughter-house, hay shed, stables, and harness room; large stockyard (newly erected), with inoculation lanes, spaying bails, &c., capable of working 2000 head of cattle; 2 large grass paddocks, containing over 700 acres, securely fenced, and the trees ring; 1 cultivation paddock paled in, garden well stocked with fruit trees and vines; 2 large stockyards at out stations, one of which is extended as a herding paddock, recently erected; large and complete sheep drafting yards; 10 permanent sheep stations, nearly all capable of carrying 2 flocks each; huts and yards in thorough good order.
*** Stores, stock-horses, working plant, and sundries, to be taken at a valuation.

☞ This early Notice is given in order to allow of the fullest inquiries being made, and INSPECTION OF THE STOCK AND PROPERTY IS PARTICULARLY INVITED. The head station is about 145 miles west from Grafton, 100 miles south from Warwick Railway Terminus, and 26 miles from Tenterfield.

THE DALGANGAL STATION,
with
25,000 SHEEP, more or less,
700 CATTLE, ditto,
situated 130 miles from the shipping port of Maryborough, and 50 miles from Gayndah.

TERMS—One-third cash; the balance by bills at one and two years, with 7 per cent. interest added, and secured by mortgage over the station and stock, or all such, at the option of the purchaser.

BREWSTER and TREBECK have received instructions to sell by public auction, at their Rooms, Squatters' Exchange, George-street, Sydney, on WEDNESDAY, the 26th February, 1873, at 12 o'clock,
That well-known property called
DALGANGAL,
consisting of the following blocks,

DALGANGAL	THREE MOON CREEK
THE ISLAND	BROADWATER
SPLINTER CREEK	MONAL

All these blocks are WELL GRASSED and PERMANENTLY WATERED by the Burnett River, and also in all the back country by numerous tributaries, which contain an ample supply in every season.
With DALGANGAL will be sold
25,000 CHOICE SHEEP, more or less,
700 HEAD OF QUIET CATTLE.
THE SHEEP have been bred with great care for many years, from the late Mr. William Bell's Westbrook Rams, and from Hale's Nanango stock. The prices realised for the wool will bear favourable comparison with the best clips in Queensland. Account sales, now at our office, show that in the September sales, before the last rise, 2s 7d per lb. was obtained.
THE CATTLE, which are well-bred and quiet, are to be taken by the purchaser at 60s. per head, calves under six months given in.
The horses, working bullocks, drays, stores, &c., to be taken at a valuation.
The HOMESTEAD is very comfortable, and the numerous substantial improvements make Dalgangal one of the most complete stations in the colony—everything is in perfect working order.
Splinter Creek, a superior and very valuable block of country, has just been added to Dalgangal, in lieu of Mountain Creek, making the grazing capabilities now equal to 50,000 sheep and 2000 cattle. It is held under the usual 21 years' lease.

☞ DALGANGAL HAS ALWAYS BEEN A STEADILY PAYING STATION, and the attention of capitalists is directed to the sale, as an excellent opportunity for acquiring a compact and well-improved property, capable of being economically and profitably worked.
It is easily accessible, and purchasers are invited to inspect the Runs and Stock prior to the day of sale.
FULLER PARTICULARS MAY BE OBTAINED FROM
BREWSTER and TREBECK.

AUCTION SALES.

EXTENSIVE QUATTING PROPERTIES in the Murrumbidgee and Lachlan Districts. For Absolute Sale.

RICHARD GIBSON and CO. have received instructions from Hugh Stitt, Esq. (surviving partner of the firm of Stitt, Brothers, with the consent of the executors of the late Walter Stitt, Esq., deceased), to SUBMIT to PUBLIC COMPETITION, at Mansion' Hotel, Bourke-street, on FRIDAY, the 14th February next, at 2 o'clock,

The following well-known stations:—

WALLA WALLA,

together with about 4000 acres of purchased land, and 30,000 sheep, as follows:—

9,110 ewes, two, four, six, and eight tooth
13,695 wethers, ditto
7,000 weaners
280 rams

30,085 more or less.

This property is highly improved, and all subdivided into suitable paddocks. The sheep are descended from Messrs. Henty's well-known Muntham merino rams, all of them having been carefully bred by the present proprietors for the last 10 years without admixture of extraneous blood. The wool brought up to 1s 7d per lb. in the grease last year, in a falling market, and has always realized the top prices. The improvements are most complete in every respect, with new woolshed for 36 shearers, screw press, &c., the dwelling-house alone having cost over £2000.

NARADHAN EAST,

in the Lachlan district, will be sold with the following stock:—

6500 ewes, two-tooth to full mouth
2500 weaners
400 head of well-bred cattle.

This station comprises 192,000 acres of first-class Yarran country of the most fattening description, admirably adapted for either sheep or cattle. The agents would draw particular attention to this property as it is not one-tenth stocked, and with the present improvements alone would carry 40,000 sheep. For further particulars apply at the office, 66, Queen-street; or to Mr. J. M. SMITH, Solicitor, Chancery-lane.

Terms at sale.

IN THE ESTATE OF JAMES MARTIN KELLY, LATE OF RICHMOND, BAKER.

T. W. BOWDEN is instructed by J. P. Mackenzie, Esq., Official Assignee, with the consent of the Mortgagee, to sell by auction, at the Land Sale Rooms, 154, Pitt-street, on THURSDAY, the 23rd January, at half-past 11 o'clock prompt,

The shop and premises, situated at the junction of Lennox-street with Cox's-lane, in the town of Richmond, erected by Mr. Kelly, and long occupied by him when carrying on the business of a baker in that town.

The main building comprises a double-fronted shop, fitted with counters and shelves, having a verandah on two sides; on the same floor are two sitting-rooms and kitchen; above the sitting-rooms are two bedrooms, and servant's room over the kitchen.

The house is brick-built, the roofs shingled.

Detached from the main building is the bakehouse, with large furnace oven, all built of brick, and a fine storeroom over the bakehouse, for storing flour.

In the yard are a well of water, a stable, and sheds for carts.

A garden at the rear, with many fruit trees.

The land comprises one rood and 155 feet, more or less, and is bounded on the north-east side by 243 feet in Lennox-street, on the south-west by a line 259 feet 6 inches, on the south-east by allotments sold to Samuel Davidson.

Terms at sale.

G. F. WANT will offer the undermentioned valuable property, at his Rooms, Pastoral Exchange, 273, George-street, Sydney, by public auction, on TUESDAY, 11th February, 1873, at 11 o'clock (under instructions from Messrs. Gilchrist, Watt, and Co., to close partnership accounts),

WOMBO,

situated in the Darling Downs district, Queensland, consisting of the following blocks of country, viz.:—

WOMBO FOREST
YAMO.

The above station is close to the terminus of the Railway, in the township of Dalby, and will be offered without stock, including the right of brand to about 2000 head of cattle unmustered.

The IMPROVEMENTS consist of good houses, woolshed, and washpool.

The country, which could be formed into a first-class breeding run, would prove invaluable to the owners of overstocked Darling Downs runs, being magnificently watered and grassed in the dry seasons.

The carrying capabilities of the run are estimated at 10,000 head of cattle, and no less than 30 miles of good fencing has been erected, which forms a paddock capable of depasturing 1500 head of cattle all the year round.

To an energetic man, with a small capital, the above property would prove a most profitable investment.

Any further information may be obtained at the Pastoral Exchange, 273, George-street, Sydney.

G. F. WANT will offer the undermentioned valuable property, at his Rooms, Pastoral Exchange, 273, George-street, Sydney, by public auction, on TUESDAY, 11th February, 1873, at 11 o'clock (under instructions from Messrs. Gilchrist, Watt, and Co., to close partnership accounts),

BURDEKIN DOWNS,

situated in the North Kennedy district, Queensland, comprising (2) two blocks of country, viz.:—

BURDEKIN DOWNS, and
RICHMOND DOWNS;

together with 2000 head of cattle, more or less.

The above runs have a frontage of 19 miles to the Burdekin River, and 7 miles to the Fanning River, being also watered by Arthur's Creek, which runs into the Burdekin at right angles, and embrace an area of 149 square miles of country, consisting of lightly timbered and fine open ridges, covered with the best grasses and abundance of saltbush.

The IMPROVEMENTS consist of a good 5-room cottage, nearly new, kitchen, store, &c., and on the run there is a stockyard, built last year, in which 3000 head of cattle can be worked conveniently; also a good horse paddock at the head station.

The CATTLE, consisting of 2000 head, more or less, as above, are a mixed, quiet, well-bred herd, from twelve months old and upwards, and will be mustered and delivered. Horses, stores, &c., to be taken at a valuation.

PRELIMINARY ADVERTISEMENT.

MAGNIFICENT BARCOO STATION, MITCHELL DISTRICT. QUEENSLAND.

G. F. WANT has received instructions from Messrs. Hill, Holberton, and Allen to submit to public auction, at the Pastoral Exchange, 273, George-street, Sydney, towards the latter end of March next, on a day to be named,

THE ISIS DOWNS STATION,

Situated on the Barcoo River, Queensland, consisting of an enormous extent of first-class Downs country, well and permanently watered in all seasons; together with

20,000 SHEEP, more or less.

☞ In calling the attention of intending purchasers to the sale of the above unequalled pastoral property, it is only necessary to state that the station adjoins the celebrated PORTLAND DOWNS, and is even of a superior class of country. The stock have been under the immediate supervision of the owners, who are all thoroughly practical men; and no expense or care has been spared in the management.

Further information may be obtained at the Pastoral Exchange, 273, George-street, Sydney.

FIRST-CLASS MANSION AND GROUNDS.

GLANWORTH,
DARLING POINT.

RICHARDSON and WRENCH have received instructions from R. COVENY, Esq., to sell by public auction, at the Rooms, Pitt-street, on FRIDAY, 24th January, at 11 o'clock.

That well-known COMMODIOUS FIRST-CLASS FAMILY MANSION,

GLANWORTH,
DARLING POINT,

together with about THREE ACRES of highly improved

FREEHOLD GROUNDS,

having extensive frontage to the Darling Point Road.

GLANWORTH HOUSE is approached through a noble carriage drive, entered by handsome iron gates. It is substantially and faithfully built of worked stone. There are wide flagged verandahs, nearly surrounding the house, with conservatory at one end, and from the upper floor are convenient balconies. The accommodation comprises—

ON THE GROUND-FLOOR, spacious hall, 10½ feet wide; drawing-room, 38½ x 26½; dining-room, 38½ x 19 (both of these fine rooms are divided by folding-doors, and can, if desired, be converted into four apartments); library, butler's pantry, store, &c.

ON THE FIRST FLOOR are 5 bedrooms, dressing-room, bathroom, and patent closet.

IN THE BASEMENT, which is of solid masonary, are large wine-cellar, commodious kitchen, with splendid range scullery, store, &c., servants' apartments. These offices open on to a side verandah, 70 x 15.

THE OUT-BUILDINGS consist of range of stone-built stabling, coachhouse, harness room, loft and groom's room, detached laundry with copper, &c., and servant's room above.

The whole premises are abundantly supplied with water from both well and reservoirs, into which the roof water is conveyed, and from which by pump the water is forced into cisterns supplying the bathroom and other offices.

GLANWORTH HOUSE is a commodious well-finished family mansion, with spacious lofty apartments and superior accommodation. The elevation is handsome and bold, and the interior decorated with elegance and taste. The architraves, skirting boards, doors, &c., are all of picked cedar, and no expense has been spared in rendering the whole for completeness, finish, and luxurious convenience, a perfect family mansion.

THE GROUNDS contain an area of TWO ACRES AND A HALF and 8 PERCHES, having 428 feet frontage to the Darling Point Road. They comprise lawns, shrubberies, brilliant masses of greenery, stately handsome trees and fine evergreens rich in foliage, parterres of flowers and rare plants, the general arrangement giving evidence of considerable taste, and producing a broad effective picture.

The SITE is one of the most valuable on this favourite point. The house stands on an eminence overlooking the seats and estates of the neighbouring proprietors, and the views it commands are both extensive and beautiful. They include a large portion of Sydney and its environs, nearly the whole of the harbour, from the Parramatta River to the Heads, forming one continuous panorama of noble views, the inland scenery giving an air of quiet repose and a high degree of beauty to the prospect.

CARDS TO VIEW can be obtained on application.

Terms, liberal.

BUCKHURST, DOUBLE BAY.

A FIRST-CLASS FAMILY MANSION, together with EXTENSIVE IMPROVED GROUNDS, containing an area of about SIX ACRES AND A-HALF, extending from the South Head Road to the waters of Double Bay.

RICHARDSON and WRENCH have received instructions from the Attorney for the Executors of the Will of the late Archibald Walker, Esq., to sell by public auction, at the Rooms, Pitt-street, on

FRIDAY, 31st January,
at 11 o'clock,

BUCKHURST, DOUBLE BAY.

This well-known very favourably situated FAMILY MANSION is, together with the extensive out-offices, massively built of stone in the modern style of architecture, with spacious verandahs and balconies, which command extensive panoramic views of the harbour. The accommodation is as follows:—Wide hall, large drawing and dining rooms, 6 bedrooms, dressing room, bathroom, servant's bedroom, 2 kitchens (with ranges), laundry, wine-room, pantry, store, &c. Abundant water supply from an extensive underground built tank, from which the water is forced and laid on to the house.

The outbuildings are unusually spacious and substantial. They consist of a range of stone buildings comprising complete paved stable of 4 stalls, each fitted with patent enamelled iron rack, manger, and trough; double coach-house and harness-room; above the whole of which is a lofty man's room and hay-loft.

In a yard at the rear of out-buildings are fowl-house, piggery, and other premises; and adjoining the orchard is a gardener's cottage of 4 rooms.

THE GROUNDS contain an area of 6 ACRES 2 ROODS 38 PERCHES, extending from the South Head Road to high-water mark on the fine sandy beach of Double Bay, to which, as well as to the road, they have a very large frontage. The site is one of the best selected and most valuable on the Point Piper estate, opposite Cranbrook, the seat of the Hon. Robert Towns, and surrounded by the gardens and grounds of Redleaf, Glenyarrah, the properties of William Walker, Esq., and the Hon. S. D. Gordon. It adjoins also Colonel Richardson's property, occupied by R. C. Want, Esq.

The approach to Buckhurst is by a wide carriage drive, lined with tall luxuriant masses of evergreens, giving privacy to the front, and at the same time a beautiful condensed prospect. The northern and north-western portion of the grounds have an uninterrupted extensive harbour view, full of natural beauties unequalled from any point on the shores of Port Jackson. The walks, lawns, shrubberies, bounded by the smooth, sandy beach, are very attractive, and a great deal of good taste is displayed in not disturbing the original undulating and sloping banks leading to the quiet sheltered waters of the bay. The view embraces nearly the whole of the harbour and its pretty wooded islands, the rocky shores and inlets of the northern side, with glimpses of the higher portions of the city in the distance, and nearer the ornamental grounds of Darling Point and surrounding properties. Nestled in a hollow of rich soil, some little distance from the house, a garden about an acre in extent, is enclosed and laid out. It is planted with choice orange and other fruit trees, in full bearing, also with a number of valuable flowering plants and shrubs. On the beach is a good boat-house, also a capital jetty, and bathing-house.

☞ To carry out the instructions in the testator's will with regard to reinvestments in England, the executors of the late Mr. Walker are absolutely bound to realise this first-class suburban estate. The sale affords a splendid opportunity for securing a gentleman's residence perfect in its arrangements, massively built, quietly decorated, and surrounded by favourably situated grounds, in the laying out of which elegance and good taste are conspicuous.

TITLE—Point Piper Estate, leasehold, between 60 and 90 years to run, at a low ground rent of £10 per acre per annum.

PLAN of the land can be inspected, and further particulars obtained, at the Rooms; or on application to Messrs. Norton and Barker, solicitors.

BLIGH DISTRICT.

THE NOTED HADDON RIGGS STATION, formerly the property of Messrs. Christie and Wentworth.

IMPERATIVE SALE.

RICHARDSON and WRENCH are instructed to sell by public auction, at their Rooms, Pitt-street, Sydney, on TUESDAY, the 4th February next, at 11 o'clock,

The above first-class fattening property, together with its improvements, a small herd of cattle, and

51,000 SHEEP, more or less.

HADDON RIGGS STATION is situated about ninety miles from Dubbo, on the Marthagay River, to which it has frontages on both sides of upwards of eighteen miles, and includes some of the best permanently-watered parts of that river. It comprises twelve blocks of country, as well as the celebrated block "Mumblebone," on the Macquarie River, and embraces 226,760 acres of the richest fattening land, consisting principally of myall plains, intersected by open box forests and rich swamp land on the Macquarie. The carrying capabilities of the run are very large, and with a small additional outlay for conserving water on the back country, it could easily be made fit for double the present number of sheep in any season.

Within the last three years very considerable improvements have been made. The whole of the homestead buildings, dwelling-house, store, woolshed, woolstore, and other buildings, have all been reroofed and put in good order; the washpool has been remade, and by a substantial dam, a splendid sheet of water, has been obtained for washing. Various other dams have also been constructed, and the "Broadgen," an immense lagoon capable of watering 20,000 sheep, has been closely fenced in. For the sheep after washing, a paddock of 10 acres has been enclosed with high paling fences, and laid down in couch grass; and every appliance is now on the station for spout-washing the wool in a first-class manner. A bale of this season's clip may be inspected at the auctioneers' wool stores, Circular Quay.

Most of the above-named improvements are erected on 480 acres of purchased land, as well as many others too numerous to mention. There are also three large paddocks.

With Haddon Riggs will be sold the following sheep, viz.:—

Ewes.....	19,500, more or less, from 3 years up	
	5,000, ditto ditto, maidens	
	2,000, ditto ditto, 4 and 5 years with lambs at foot	
Wethers ..	11,800, ditto ditto, 2 to 5 years	
Rams ..	280, ditto ditto	
Stud flock ..	420, ditto ditto	
Weaners ..	12,000, ditto ditto, mixed sexes, lambed from April to August, all to count as sheep.	
Sheep ..	51,000, more or less.	

*** Of the lambs at foot to be given in, there are ABOUT 1900 born November and December, and about 200 of same age from the stud flock, the progeny of two £50-rams. Of the fattening sheep, 2000 wethers and 7500 ewes were expected to be ready for market by time of sale

These flocks have, under the painstaking care of the late superintendent (a first-class manager of high repute), been carefully culled and classed yearly, while strict attention has been paid to the rams introduced to them. During the last two years many valuable ewes and rams, principally from the noted Mudgee flocks belonging to Messrs. C. C. and G. H. Cox, have been added to the station for stud purposes, in addition to two unrivalled rams, which took first prize, as the best pen of any age, at the Mudgee Exhibition of 1871. In fact, no money has been spared to bring the Haddon Riggs flocks up to a high standard of excellence.

This property, unsurpassed as a breeding as well as a fattening run, is now brought forward for peremptory sale, and capitalists seeking a first-class investment are invited to inspect it.

TERMS—One-quarter cash on fall of the hammer; a further cash payment of one-quarter on tender of delivery order; and the balance may remain, secured on the property by mortgage, for one year, carrying interest at 8 per cent. per annum.

DISTRICT OF MARANOA, QUEENSLAND.

FOR POSITIVE SALE,
to close accounts.

The following first-class Sheep Stations, viz.:—

LOT 1.—WALLUMBILLA,

comprising six large blocks of richly grassed and watered country, situated about thirty miles on the eastern side of the township of Roma, and adjacent to the Bendemeer and Blythdale Stations.

The improvements are of an extensive character, and consist of comfortable homestead, first-class woolshed, and splendid waterhole for washing purposes, as well as all necessary outbuildings for working the property with comfort and convenience. The SHEEP PADDOCKS are very large and substantially erected.

With this property will be sold

18,000 SHEEP, MORE OR LESS,
of very superior breed.

LOT 2.—KILMOREY,

This choice run embraces four large blocks of capital country, of a very fattening description, and well watered throughout; it is situated about seventy miles north of ROMA, and adjoins the well-known MOUNT HUTTON property.

IMPORTANT SALE
of
One of the Most Valuable, Desirably-situated, and Extensively-improved
GRAZING AND AGRICULTURAL ESTATES
in the
NORTHERN DISTRICT,
Within Easy Distance of the Town of Singleton,
Approximate to Maitland,
and upon the Main Line of Road from the Northern Interior to Sydney.

THIS MAGNIFICENT PROPERTY
is known as the
"MILBRODALE" ESTATE,
and comprises

3000 ACRES of RICHLY-GRASSED LAND, 1000 Acres of which are ring-barked; and 140 Rods of Three-railed Fence having been recently erected, renders a splendid plot at once available for stock. Irrespective of this vast extent of freehold, there are

4110 ACRES HELD UNDER PRE-EMPTIVE LEASE.

And 200 ACRES CONDITIONALLY PURCHASED, the whole being

PERMANENTLY WATERED

by running streams and never-failing water-holes—the former intersecting the property in such a manner as to keep stock constantly within control, and the general management freed from the disadvantages which accrue in badly-watered districts.

THE IMPROVEMENTS
consist of

FAMILY RESIDENCE, with necessary Outhouses, Enclosed Cultivation, Grazing Paddocks, Stockyards, &c., &c., &c.

The Proprietor has also contracted for the erection of a vast extent of 2-railed Fencing, thus completing every requisite for efficiently working the property.

TERMS:—Cash; or, if elected, one-third Cash—the residue of the purchase money to remain five years, bearing interest at the rate of 7 per cent. per annum, payable half-yearly, secured by mortgage upon the property in the usual manner, the purchaser having the option to pay off £500 at any time during the currency of the mortgage, by giving three months' notice.

BRUNKER and SPARKE have received instructions from Chas. Parnell, Esq., to sell by auction, at the Northumberland Hotel, West Maitland, on WEDNESDAY, the 15th January, 1873, at 12 o'clock,

THE MILBRODALE ESTATE.

This valuable and extensive property has been occupied for many years by Mr. W. M'Alpin, and may undoubtedly be classed as one of the most unmistakeable investments offering. The quality of the land is unquestionable. Irrespective of its

GRAZING CAPABILITIES,

its adaptation for agricultural purposes cannot be excelled. Those portions cultivated have produced

PROLIFIC CROPS OF WHEAT

of the very best description.

The difficulty to secure grazing estates possessing the advantages of Milbrodale is becoming daily apparent. To station proprietors it would be invaluable as

A DEPOT FOR STOCK,

enabling the squatter to hold his consignments, for the most favourable market, without affecting its capacities or influencing in the slightest degree with the profitable working of the estate.

THE SITUATION of MILBRODALE IS MOST HEALTHY; its proximity to the principal towns in the Hunter River district, and

EASY ACCESS BY RAILWAY AND STEAMER TO THE METROPOLIS

are privileges not to be overlooked, and must at once convince investors that the growing importance of the colony must tend, beyond conception, to augment the value of such properties as MILBRODALE. The Auctioneers therefore invite (with confidence) the especial attention of parties desirous to secure

A STERLING INVESTMENT,

a the sale of this truly valuable and splendidly situated estate.

Should this property not be sold, it will be LEASED BY AUCTION for a term of ten years, possession to be given in April, 1873.

Intending purchasers are especially requested to INSPECT THE PROPERTY. Every facility will be afforded by Mr. W. M'Alpin, or Mr. James Moy, who reside on the estate;
